We are proud to be a different type of university
A university of today for the world of tomorrow

We offer qualifications at all levels from access courses to PhD, so you can start where you need to and progress as far as you want.

We connect the world of learning to the world of work, by combining academic excellence, vocational training and industry expertise to equip you with the skills employers are looking for.

We provide a personalised approach to helping you find your unique learner journey, building your skills and confidence to prepare you for your chosen path.

Join us
To be inspired by our unique landscape, stunning locations and innovative teaching methods, and we will help you to achieve your ambitions
The University of the Highlands and Islands looks forward to welcoming you.

You will have the opportunity to experience our stunning and inspiring environment and engage with the culture of our region.

Using our well-established blended learning approach, we connect you to tutor, student, employer and community networks.
I moved from Australia to lead this progressive and innovative university. And I moved here because I could see something I wanted to be involved in – a university which was daring to be different.

All universities will tell you that they put their students first, but our students are the beating heart of our university and our alumni are graduates for life. When you join us, you'll be joining the largest student body in Scotland, represented by a student association active across the largest area of any campus-based university in the UK.

We are held in high esteem and are well known for offering further and higher education and world-leading research. And we have strong links with business and industry to make sure our graduates have the skills, qualifications and confidence to thrive in the 21st century workplace.

Our staff can help guide you as you learn and will welcome you into our communities. You can access and leave courses at many levels to suit your commitments supported by locally based and regionally accessible teams. They are skilled in helping you stay safe, healthy and happy and will remove barriers in your way. It’s your future and your choice.

Our blended learning style is one we’ve developed for over 20 years and other universities and colleges follow our lead. We combine creative approaches to teaching in person and online. It gives students the flexibility to study whenever you choose and from wherever you are and helps develop your independence.

So, I would recommend browsing through some options. Why not get in touch for a chat and discuss the possibilities for you. You probably won’t have to travel as far as I did but I can guarantee the same warm welcome. See you soon.

Le deagh dhùrachd
Todd
Professor Todd Walker

Entry requirements and progression routes

We are proud to welcome and support students with a wide range of backgrounds, qualifications and life experiences. We will do all we can to assist your application and to support your needs once you are studying with us. We aim to provide a learning structure which helps you to reach your goal no matter where you start from. We do this by being flexible with our entry requirements and offering a range of alternative progression routes through our courses.

Entry requirements – FAQs

Based on the unique range of courses on offer at the University of the Highlands and Islands, an offer of a place is not always based on academic ability alone. We accept a wide range of equivalent qualifications and recognise that there is a variety of routes through which qualifications may be gained and ways in which readiness for higher education study may be demonstrated.

What qualifications do I need?
Information on minimum entry qualifications are provided in the summary information on each individual course page or on our website. If you do not have the standard entry requirements we would still encourage you to apply.

Do I need to complete my qualifications in one sitting?
No, we will accept qualifications gained over more than one sitting.

Can I use my qualifications from another institution?
Yes, you can sometimes receive credit for qualifications gained from other institutions. For example: a National Certificate or Higher National qualification in a relevant subject from another institution could be used to assist your application or in some cases could provide exemption from parts of a BA, BEng or BSc (Hons) degree.

Can I use my work experience as credit for a course?
Yes, we will accept properly evidenced voluntary and paid work experience. You may be asked to provide some additional information with your application and could also be invited for interview. Course leaders will give advice on compiling a recognition of prior learning claim.

Scottish Credit and Qualifications Framework (SCQF)
The SCQF Framework allows you to compare levels across different awards, build a progression route to your desired qualification and to transfer credit from one award to another. For more information please visit the SCQF website at: www.scqf.org.uk, to view the interactive version of the Framework.
Progression routes

In addition to our flexible entry points, most of our courses offer a clear pathway for progression on to the next level of qualification, ensuring that you can achieve your ambition.

This diagram illustrates the ways you can progress from one level of study to the next.

Apprenticeships offer alternative routes to qualification and employment. They offer high quality work-based learning, combining both the best of academic and vocational learning in one single qualification. Depending on your level of study, there are three options: Foundation, Modern and Graduate: find out more at www.uhi.ac.uk/apprenticeships
Why choose HUMANITIES AND SOCIAL SCIENCES?

Studying a humanities and social sciences course with the University of the Highlands and Islands gives you the opportunity to develop a wide range of personal skills that will always be in demand with employers. These will vary depending on your chosen course, but many of the skills you pick up will be transferable in the workplace. Skills include problem solving, being objective, conducting research and evaluating sources, debating, proposing ideas and theories, and leading and participating in discussions.

Study with us, and we will help you build your skills and confidence to prepare you for your chosen career path.

This course gave me the opportunity to follow the career I love: becoming a teacher and using what I have learned to teach children about the island they live on, including the history of the Gaelic language.

Kirsty Watt  
BA (Hons) Gaelic Scotland
The university’s careers service helped me to get onto the Saltire Scotland Internship programme which meant I could apply for internships across the world.

Victoria Whiteford
BA (Hons) Scottish History and Theology

Gaining archaeological fieldwork skills and an understanding of how commercial and research archaeology works was fundamental to being offered a job with AOC Archaeology Group.

Archaeology BA (Hons)

With world-renowned archaeological heritage sites such as Skara Brae, Maeshowe, the Camster Cairns and Mousa Broch, what better place could there be to study archaeology than in the Highlands and Islands of Scotland? Our degree is closely linked to the distinctive cultural heritage of Scotland but places that within a much broader global context. There is a strong emphasis on developing archaeological skills in areas including field archaeology (excavation and survey), environmental archaeology (zooarchaeology, archaeobotany and osteoarchaeology) as well as digital archaeology (photogrammetry) and archaeological illustration.

Study method

- Scheduled video conference lectures and tutorials
- Online study
- Practical field and project work
- Each module normally involves a two-hour weekly time-tabled video conference lecture which you should attend at your home campus

Campus

- Argyll College UHI
- Highland Theological College UHI
- Inverness College UHI
- Lews Castle College UHI
- Moray College UHI
- North Highland College UHI
- Orkney College UHI
- Perth College UHI
- Shetland College UHI
- West Highland College UHI

Features

- Develop skills in surveying, fieldwork and post-excavation practices
- Put your skills into practice through archaeological placements
- Taught by lecturers engaged in world-class research projects
- Combine your studies with other disciplines

For joint degree options see page 24
Archaeological Science BSc (Hons)

Are you interested in archaeology but wish to focus on the scientific elements of this field of study? If so, the BSc (Hons) Archaeological Science could be perfect for you. Complementing our existing range of archaeology programmes, this exciting degree explores a variety of science-based methods that form an integral part of archaeological research, from archaeobotany to zooarchaeology. You will develop your scientific skills and knowledge through a range of science-orientated modules and participate in a variety of activities including world-renowned archaeological excavations, laboratory-based study, field-schools, and actively engaging in research.

Study method

- Face-to-face lectures
- Video-conference lectures
- Tutorials
- Online study

You will be required to attend 2 x two-week summer residential modules as part of this course: see website for details

Campus

- Argyll College UHI
- Highland Theological College UHI
- Inverness College UHI
- Lews Castle College UHI
- Moray College UHI
- North Highland College UHI
- Orkney College UHI
- Perth College UHI
- Shetland College UHI
- West Highland College UHI

Features

- Develop practical environmental archaeology skills
- Gain invaluable workplace experience and develop real-world skills for life after your degree
- Study abroad in your third year in Canada or America
- Take part and gain skills in excavation at one of our research excavations

For joint degree options see page 24
Features

• Gain a unique understanding of the communities of the Scottish Highlands and Islands – the customs, traditions, and values

• Choose from a range of many interdisciplinary subjects to suit your own interests and career path

• Choose a single-honours or one of the many joint-honours courses available

For joint degree options see page 24
Gaelic Scotland BA (Hons)

This degree has been designed for students to develop a good understanding of Gaelic issues and acquire skills relevant for employment in a wide range of sectors. You will have the opportunity to learn the language or develop your language skills depending on your starting point. This degree is about Gaelic, taught in English, with Gaelic language modules suitable for varying levels of ability. As well as the language strands, you will study elements of Gaelic history and literature, and examine issues related to the development of the Gaelic language and culture.

Study method

- Video conference lectures and tutorials
- Online study
- International students can study from their own country online and by video-conference, in real time or recordings

Campus

- Argyll College UHI
- Highland Theological College UHI
- Inverness College UHI
- Lews Castle College UHI
- North Highland College UHI
- Orkney College UHI
- Shetland College UHI
- West Highland College UHI

Features

- There is no requirement for Gaelic language skills on entry; the course caters for, and will strengthen, all levels of linguistic capability.
- You will have the opportunity to learn about Gaelic language and culture, as well as developing your language skills.

For joint degree options see page 24
Geography BA (Hons)

This degree explores the links between physical and human landscapes from a social science perspective, focusing on issues such as land use, planning and development, globalisation, climate change, energy, and tourism. You will develop skills in report writing, oral presentations, data collection and analysis, and in the use of specialist mapping and statistical software. The skills and knowledge you gain will make you highly employable to many organisations and sectors, including: renewable energy, energy efficiency, waste management, tourism, rural and community development, agriculture, local government, planning, logistics and environmental agencies.

Year 4 BA (Hons)

Other information

This course is delivered through online learning so you can study when and where it suits you, in the UK and internationally. It is not available for international students requiring a Student Route visa to study in the UK.

Study method

Online study

Opportunity to attend a residential face-to-face weekend and field trips (all optional)

Campus

Those based near to one of the listed colleges may choose to apply to, and be enrolled and supported by, their local campus:

- Argyll College UHI
- Lews Castle College UHI
- West Highland College UHI

All others should apply to, and will be enrolled and supported by, Lews Castle College UHI

Features

- Personal tutor support: to ensure a high quality student experience
- Assessment of core modules is through coursework
- Graduates qualify to apply for PGDE Secondary teaching in Geography
- According to the UK’s Higher Education Statistics Agency (HESA), Geography graduates are among the least likely to be unemployed

For joint degree options see page 24
History BA (Hons)

This course investigates the cultural, political, social and economic history of Britain, Europe and the Atlantic World. In the first two years you will follow a broad approach to the study of history from the medieval to the modern period. In years three and four, you will examine in-depth particular topics of history, allowing you to study specific places, periods and themes which reflect staff specialisms. **You can also choose to specialise in Scottish History at the upper levels, and graduate with a BA (Hons) Scottish History degree.**

**Literature BA (Hons)**

If you are passionate about reading and would like to turn this interest into a career, this course is ideal. You will explore literature in a global context, looking in-depth at language and literary history within texts and on the international literary stage. Modules cover a wide range of authors, in English and translation, as well as theory from classic to contemporary. With a solid foundation in genres and periods in years one and two, and research-based modules in years three and four, our graduates are confident and enthusiastic writers, researchers and readers.

For joint degree options see page 24
Philosophy BA (Hons)

If you have an interest in exploring views, ideas, theories, practices and behaviours, this is the course for you. A core strength of philosophical studies is in developing your ability to think well, spot errors in reasoning, analyse complex issues and arguments, build a strong case, and make a point with clarity and precision. Throughout the course you will apply this analytical and critical thinking to a range of 21st century issues such as: Is humanity headed in the right or wrong direction? Will religion ever become obsolete? What is the future of artificial intelligence?

Features

- Focus on problematic concepts such as existence, reason and truth; as well as politics, economics, religion, science, and ethics
- Discuss or present papers with fellow students and staff through regular philosophy reading groups
- Participate in organisations that actively focus on issues in society to put your views and beliefs into action

For joint degree options see page 24
Philosophy, Politics and Economics BA (Hons)

This multidisciplinary honours degree will give you the opportunity to study the three most significant realities impacting people’s lives. The comprehensive programme allows you to explore and gain an understanding of the key themes within each of the three fields, and you will be encouraged to debate, discuss, and critically think about issues in life and society. Graduates will be fully equipped with the knowledge and skills to deal with current and future issues worldwide.

*You may choose to study at Dingwall or Paisley, subject to availability

**Features**

- Study three influential disciplines in a regional, national, and international context
- You will gain skills that will enable you to pursue careers in various fields including economics, local and national government, and civil and diplomatic services, teaching profession, journalism, or banking

For joint degree options see page 24
Politics BA (Hons)

This honours degree is designed to look at the three main areas of political study: political theory, international relations, and comparative politics. The course will give you a solid grounding in all of the main debates and controversies of the day, as well as developing the skills to investigate, research and explore subjects further. Guest speakers, workshops and masterclasses are built into the course, with an optional placement module in the third year, based in a political environment, that will help you gain invaluable experience in the field.

Features

- Study politics in a regional, national and international context
- Establish relationships with potential employers, such as local governments, political parties, lobbying companies, the voluntary sector, parliaments, and the trade union movement

For joint degree options see page 24
Social Sciences BA (Hons)

If you are curious about how society works and how and why people interact with one another in the way they do, this degree will give you an insight into the everyday life of our communities and workplaces. You will focus on sociology, politics and psychology and will study society, its people and its institutions. There is a strong emphasis on research methods, which will give you the skills necessary to carry out independent research for your future career, including your dissertation in the fourth year. There are also other options available to you including history, theology, philosophy, literature, and criminology.

Structure and entry

UCAS Code L300

Year 1 CertHE
- Highers: BBC
- A levels: BC
- At least two should be from the list of relevant academic subjects: see website for details
- Alternatively, other humanities or Scottish Wider Access Programmes (SWAP), or other relevant qualifications or experience, will be considered on an individual basis: see website for details

Year 2 DipHE

- Orkney College UHI
- Perth College UHI
- Shetland College UHI
- West Highland College UHI

Features
- Develop research and methodological skills, which you can take with you into your future career
- Develop transferable skills in problem solving, group working and communication, all of which are highly valued by employers
- Specialise in particular disciplines as you progress through your studies

For joint degree options see page 24
Sustainable Development BA (Hons)

This online degree will help you to understand the facts about climate change, explore the UN Sustainable Development Goals, and consider potential and emerging solutions such as the Green New Deals and the transition to 'wellbeing economies'. It focuses on how communities, particularly those based rurally, can shape a more sustainable form of development. You will develop a critical understanding of the three main pillars of the course: economic, environmental, and social, studying modules drawn from a range of social science disciplines such as geography, economics, politics, sociology and environmental studies. You will also develop practical skills in research and work with communities.

Criminology BA (Hons)

This honour degree combines the study of the social world with the study of crime and its control. The course draws on a wide range of human and social science disciplines and will provide you with the necessary knowledge and skills to develop a critical understanding of the major theories used throughout criminology. You will develop clear and confident research methods and analysis skills alongside the critical understanding of the local, national, and international context of crime, offenders, victimisation, and responses to crime (including cybercrime).

Structure and entry

UCAS Code L311

Year 1 CertHE
- Highers: BBC
- A levels: BC
- At least two should be from the list of relevant academic subjects: see website for details
- Alternatively, other humanities or Scottish Wider Access Programmes (SWAP), or other qualifications or experience, will be considered on an individual basis: see website for details

Year 2 DipHE
- Advanced entry may be possible with the HNC Social Sciences (12 SCQF credits) (see page 23) with three additional SCQF credits at level 7, and at least grade C in the Graded Unit

Year 3 BA

Year 4 BA (Hons)

Other information
- PVG scheme membership is required to undertake specific optional modules: see website for details

Study method

Scheduled video conference lectures and tutorials
Online study
Each module normally involves a two-hour weekly time-tabled video conference lecture which you should attend at your home campus

Campus
- Argyll College UHI
- Highland Theological College UHI
- Inverness College UHI
- Lews Castle College UHI
- North Highland College UHI
- Orkney College UHI
- Perth College UHI
- Shetland College UHI
- West Highland College UHI

Features

- Develop clear and confident research methods and analysis skills and a critical understanding of the major theories deployed throughout criminology
- Optional work placement module in year three
- The nature of the degree will give you greater flexibility in employment, advanced study, and research opportunities

For joint degree options see page 24
Sociology joint degrees with: Criminology, Politics, or Theology BA (Hons)

These three joint honours courses allow you the opportunity to combine the study of the social world with the study of either: crime and its control; political issues such as poverty, crime, terror and freedom; or the study and impact of the main disciplines of Christian theology. Each course covers a wide range of themes and topics for you to explore, alongside developing strong research and methodological skills, which you can take into your future career.

Structure and entry

**UCAS Code** L30C (with Criminology); L30P (with Politics); L30T (with Theology)

Theological Studies BA (Hons)

This honours degree gives you a broad knowledge and understanding of the main disciplines of Christian theology, and the personal and professional capabilities required for a variety of ministries or general employment. The degree is led by Highland Theological College UHI, a non-denominational college recognised by the Church of Scotland, the Associated Presbyterian Churches, the United Free Church of Scotland, and other denominations, as a training provider. You will read a wide range of theology across all main traditions and have access to special collections in Highland Theological College UHI’s impressive library of 65,000 volumes.

Other information

This course is led by Highland Theological College UHI and can be studied at their Dingwall and Paisley campuses as well as our other campuses across the region. Alternatively, you can access lectures and course materials from home.

Study method

- Face-to-face and video conference lectures and tutorials
- Online study
- Work placement

Features

- Work placement opportunity in year three
- Ideal course for prospective ministers and pastors, ordained local ministers, readers, missionaries, and religious studies teachers
- Visiting speakers will give you a flavour of the different areas of service that may be of interest for future employment or volunteering

For joint degree options see page 24

- Lews Castle College UHI
- Moray College UHI
- Perth College UHI
- West Highland College UHI

*It is also possible to study and access course materials from your home location. If you choose to do this you should apply to Highland Theological College UHI
Social Sciences HNC

UCAS Code 143L

This course may provide direct access to year two of our humanities degrees and deals with key areas of social science study such as politics, psychology, sociology, history, and criminology. It aims to stimulate your curiosity about the complexity of your world. You will be supported to develop your critical thinking and your complex problem solving abilities by looking for creative solutions to social, political and psychological problems. You will also learn how topics cross over between all of the subjects.

Entry requirements: Highers: C; A levels: D; preferably English, History or Modern Studies. Subjects can also include Sociology or Psychology. Alternatively, an NC or access course in a related subject. You may be required to attend an interview and demonstrate your discursive writing skills.

You can study this course at Argyll College UHI; Inverness College UHI; Lews Castle College UHI; Moray College UHI; Perth College UHI; Shetland College UHI; and West Highland College UHI.
Joint honours

Most of our humanities subjects can be studied as joint honours, as well as single honours degrees. The joint honours programmes give you the opportunity to combine two subjects which complement your interests or career goals.

You will usually concentrate on both subjects equally, therefore, while your study of any subject will be more in depth in the single honours, you will have a wider range of skills to take into the workplace with a joint honours degree.

It may be possible to transfer between single and joint honours options, usually during your first or second year, however, advice will be available throughout your studies from your personal academic tutor.

"This university was already perfecting blended learning models 20 years ago, offering virtual learning platforms, digital and hands-on learning, and connecting students and tutors via email and video conference. Despite being based across a variety of locations, we developed relationships that were both supportive and academically enriching – sharing learning, debate, expertise. I was always made to feel recognised as a person, as well as a student."

Cait McCullagh completed her cultural studies degree at Inverness College UHI before progressing onto masters study and is now a full-time PhD student.

"Having graduated with a first-class honours in Archaeology, I took a huge leap of faith moving my family to Orkney to undertake the MSc in Archaeological Practice. COVID-19 has had an impact, however I’ve nearly finished my dissertation and am on track for a distinction. Studying with this university is the best thing I’ve ever done. The online facilities make a wide variety of courses available wherever you are and the fantastic staff support you throughout."

Mandy Dailly graduated from the BA (Hons) Archaeology from West Highland College UHI before progressing onto the MSc in Archaeological Practice at Orkney College UHI.
“I gained a huge amount of social sciences knowledge and research skills throughout the course which has prepared me for my degree. I feel like I have also learned a lot about myself, society and the world by studying this course. The lecturers were so supportive. It was a great community environment where everyone of all ages got on and supported each other.”

Ewa Langiewicz graduated from the HNC Social Sciences at Moray College UHI.

“Working full time as a museum curator while studying is challenging but I’ve learned so much about the Highlands, its history and Gaelic cultural heritage. This has been invaluable to me in understanding the collections that I look after. I’ve learned new study methods and these transferable skills will be very useful.

Education is never wasted and it’s wonderful to have access to a world of educational resources through this university.”

Karen Buchannan studied on the BA (Hons) Gaelic Scotland at West Highland College UHI.

Professor Donna Heddle, director of the Institute for Northern Studies and head of cultural heritage at the university, is the author of a number of publications on Scottish language, literature, and cultural history, and is currently leading several national and international research and cultural tourism projects.
Why choose CREATIVE INDUSTRIES?

The Highlands and Islands region has a rich musical and cultural offering. Study with us and you will be in an exceptional place to develop your creative career. Our exciting courses have strong industry links, giving you the chance to connect with like-minded people.

With state-of-the-art facilities, practical experience, industry input, and professional recognition, our portfolio of courses are designed to equip you with the necessary skills to prepare you for a dynamic career in this thriving industry.

We have a course for you – whatever your creative interests.

The university has established an excellent reputation as a dynamic and innovative destination to study, creating strong links with the sector and ensuring students have the skills and connections needed to succeed.

Alex Smith
XpoNorth
My placements with Score Draw Music and OnMusic provided an in-depth insight into the worlds of film scoring and music publishing, and the opportunity to make lasting contacts, opening up exciting new avenues for my career in music.

Barry Nisbet
BA (Hons) Applied Music

I had the opportunity to work with fashion designer Kirsteen Stewart and I’m currently doing enamelling at Sheila Fleet Jewellery.

Study method

- Face-to-face and video conference lectures
- Practical sessions
- Online study

Campus

- Inverness College UHI
- Perth College UHI

Features

- Opportunities for national and international trips to enhance your experience
- Develop creative and technical skills to produce effective contemporary art
- Studio practice, work placements and collaborative projects give you the opportunity to define your own creative identity and explore the evolving opportunities for art and creativity within the full context of contemporary art, health, recreation, and education
Contemporary Textiles BA (Hons)

This vibrant honours degree aims to harness your talent and equip you with practical skills in a range of textile areas such as knit, weave, computer-aided design, and print. You will have access to well-equipped modern studios and expert tuition from a team of practising artists and designers. Regular visits to local and national studios, firms and galleries are part of the course and you will also have the chance to work on live projects and attend textile trade fairs. Previous students have exhibited at New Designers Graduate Fair, Shetland International Textile Festival, and Wool Week.

- Online study

Features

- Gain the technical skills and knowledge to produce innovative textiles, and the business skills to market them globally
- Access to excellent knit, weave and print facilities with a Textile Facilitation Unit, equipped with Shima Seike knitting systems
- Learn highly sought-after practical, professional and computer-aided design (CAD) skills
Fine Art BA (Hons)*

If you want to study contemporary art and develop your creative skills in a vibrant and challenging environment, then the BA (Hons) Fine Art degree is for you. You will be taught by a highly experienced team of visual practitioners, who will support you to explore and experiment with a range of fine art media such as drawing, painting, digital imaging, photography, spatial studies, and printmaking. You will also have the support of academics who will help you to write about your own practice and the work of other artists, while establishing an awareness of industry and sector professionalism.

- Perform in renowned venues and festivals around Scotland
- Instrumental study is part of the course and you will have the opportunity to perform solo and with a band
- Network with impressive guest speakers

HNC Music

This can also be taken as a stand-alone course, see page 43
Audio Engineering BSc (Hons)

This honours degree is an excellent choice if you are interested in developing a career in this dynamic and exciting field of professional audio. You will have access to leading-edge equipment and recording studios where you can collaborate with music students, providing a realistic industry environment in which to learn technical skills and develop your creativity. Alongside coursework, you will take part in practical projects such as recording and producing student bands, creating broadcast content, and working in professional theatres and live venues, as well as our own campus venues and production rooms. This degree builds on the industry-recognised HNC course giving you a good grounding for degree level study.

- Study at the longest established audio engineering education centre in Scotland
- Taught by experienced and research active professionals
- Develop both industry and academic skills through real-life assignments on and off-campus
- Access to studios out-with class time to further develop your professional audio skills

HNC Sound Production

This can also be taken as a stand-alone course, see page 44
Drama and Production BA (Hons)

This distinctive honours degree will prepare you for careers related to drama and theatre. With a focus on devising, production, and entrepreneurship skills, you will be trained to be performers, practitioners, producers, and researchers. The course allows you to develop valuable performance production skills to ensure you are well prepared for your future career. The programme also facilitates in-house extra-curricular productions as well as organising visiting productions. During the fourth year you will develop a major piece of practice and/or text-based research, drawing on the critical performance and production skills you have developed throughout the degree.

Features

- Placement opportunities and connections via the programme’s network of theatre practitioners
- Rolling programme of extra-curricular master classes and workshops delivered by industry professionals
- Showcase your performance work at venues across the region
- Opportunities to develop independent performance projects
Contemporary Film Making in the Highlands and Islands BA (Hons)

This exciting honours degree allows you to produce creative films using the beautiful and diverse rural landscapes of Scotland. You will have the opportunity to collaborate with local communities, as well as arts and cultural industry experts, to set up realistic industry links for your future career and employment. You will study a mix of craft skills, editing and production, film studies, documentaries, and cultural archiving and recording, in an environment that promotes personal development and learning. You will also develop skills in small business planning and research, while acquiring technical ability and hands-on, intensive experience.

Creative Writing in the Highlands and Islands BA (Hons)

If you aspire to being a professional writer, love words and are passionate about reading and writing, this innovative degree could be perfect for you. The course is designed to give you a solid grounding in the creative principles, in both form and structure, of four of the main areas of creative writing: poetry, prose, playwriting and the screenplay. You will be encouraged to explore how these can inform and support other areas of professional writing in gaming, advertising, marketing, vlogs etc. You will also present your work using traditional methods as well as new technologies and publishing platforms.

Literature and Creative Writing
BA (Hons)

Are you passionate about reading and interested in the study of literature, but also keen on developing your own creative writing? If so, this exciting degree gives you the chance to do both. You will explore literature in a global context, looking in-depth at language and literary history within texts and on the international literary stage. You will also receive a solid grounding in the creative principles, in both form and structure, of four of the main areas of creative writing: poetry; prose; playwriting; and the screenplay, and will explore how these can inform and support other areas of professional writing in gaming, advertising, marketing, vlogs etc.

- Present your own work using traditional methods as well as new technologies and publishing platforms
- Residential experiences will enrich your learning
- Develop skills to become a confident and enthusiastic writer, researcher, and reader
Acting and Performance HNC

UCAS Code 014W

This course is aimed at those with experience or with a genuine interest in acting and performance. It will allow you to develop your skills in voice, movement, acting and stage craft. By taking part in performances in our versatile performing arts studio as well as in the community, you will work cooperatively in teams experiencing opportunities for leadership and take part in innovative and creative approaches to work in rehearsal and performance. You will also collaborate with students on the BA (Hons) Drama and Production.

Entry requirements: Highers: CC; A levels: DD, including English plus four National 5s at grade C or above, or equivalent; or NC Acting and Performance; NC Creative Industries with at least National 5 in English; or NC Musical Theatre. You will be required to submit a video monologue of up to five minutes, and a short piece of written work.

You can study this course full time or part time at Inverness College UHI. In collaboration with Out of the Darkness Theatre Company, you can also study full time at Moray College UHI.

Contemporary Art Practice HNC/HND

UCAS Code 209W/309W

The first two years of our BA (Hons) Contemporary Art Practice, these project-based, interdisciplinary courses give you the opportunity to respond to a range of creative briefs designed to challenge, stimulate and inspire. You will be introduced to a variety of media, processes and techniques, including drawing, painting, sculpture, film and photography. There is also the opportunity to study modules that develop your personal work and projects, such as portfolio-building and personal development planning.

Entry requirements (HNC): Highers: C; A levels: D; or NC Art and Design; or Foundation Apprenticeship in Creative and Digital Media. You must also submit a portfolio of visual work and attend an interview. PVG scheme membership may be required: see website for details

You can study these courses full time or part time at Argyll College UHI, Inverness College UHI and Perth College UHI. The HNC can also be studied part time at West Highland College UHI.

Fashion: Design and Production with Retail HNC/HND

UCAS Code 132W/232W

These courses are ideal for anyone wishing to pursue a career in fashion, design, production, or retail. Practical projects will allow you to develop highly relevant, sought-after skills in areas such as: textile technology; pattern construction; fashion design; fashion merchandising; commercial design; producing fashion garments; fashion illustration; and millinery. You will also gain in-depth experience of designing and working with Scotland’s famous Harris Tweed, with opportunities to visit local mills, weavers and artisans.

Entry requirements (HNC): Highers: CC; A levels: DD, preferably in Art, English, Fashion and Textiles; or NC Fashion Design and Production or equivalent at SCQF level 5 or 6. Evidence of experience or qualifications in Art and Design or a related area will also be required.

You can study the HNC full time and part time, and the HND full time, at Lews Castle College UHI, in Stornoway.
Jewellery HNC
UCAS Code 127W

This course provides a creative environment for you to develop your design and jewellery making skills. Through practical projects, you will learn techniques in construction, casting, and stone setting, to bring your skills up to industry standard. You will also learn to merge practical skills with your creativity through a number of design projects, which will give you the chance to produce jewellery pieces that reflect quality craftsmanship and good design consideration.

Entry requirements: a National Certificate qualification; appropriate collection of National Certificate Units in Jewellery; or equivalent qualifications at SCQF level 5 or 6. Applicants with some experience of jewellery making, or evidence of experience or qualifications in a related area of Art and Design, will also be considered.

You can study this course full time at Lews Castle College UHI, in Stornoway.

Music HNC/HND
UCAS Code 103W/003W

This HNC Music, which is the first year of our BA (Hons) Popular Music, can also provide access to the HND Music or to the second year of our BA (Hons) Applied Music. If you are interested in pursuing a career in popular or traditional music performance, the courses are ideal. You will receive a strong grounding in core disciplines which allow you to develop and enhance your musical skills and understanding of the music industries. In addition to individual instrumental skills, you will also cover: first study instrument or composition; live performance; theory; graded unit; and music business for musicians.

Entry requirements (HNC): Highers: C; A levels: D; or NC Music. You will also attend an audition and interview for which you must prepare and perform a piece that demonstrates your skillset on your instrument or voice; for writers this can be an original composition or song.

You can study the HNC full time or part time at North Highland College UHI (Alness campus), Perth College UHI and Shetland College UHI; and full time only at Lews Castle College UHI (Benbecula campus), and West Highland College UHI (Fort William campus). You can study the HND full time at West Highland College UHI.

Music Business HNC
UCAS Code 31WN

The first year of our BA (Hons) Music Business, this course incorporates all the elements needed to gain a career in the music business. Subjects include: music law; music business: graded unit 1; music history; genres, record labels and artists; marketing and promotion; artist management; communication skills; releasing a record; running a live music event; budgeting and accounts; understanding sound production; and publishing.

Entry requirements: Highers: C; A levels: D; NPA Music Business; NC Music; NC that includes communication, numeracy and IT skills; or a Foundation Apprenticeship in Creative and Digital Media. You must also attend an interview.

You can study this course full time at Perth College UHI.
Musical Theatre HNC/HND

UCAS Code 113W/013W

These courses are ideal if you are interested in a career in the musical theatre and performing arts industries, or within community arts. You will develop your skills in singing, dancing, and acting through a range of performance opportunities and training. Working alongside students on the HNC Technical Theatre, you will also gain an understanding of the complete production process and develop your collaborative skills. Guest lecturers, industry visits and industry professionals' masterclasses will enrich your experience.

Entry requirements (HNC): Highers: C; A levels: D; or successful completion of a related SCQF level 6 or equivalent qualification such as NC Music or NC Acting and Theatre Performance; or other relevant qualifications or industry experience will be considered. You will also attend an audition and interview to assess your musical ability.

You can study these courses full time or part time at Perth College UHI.

Sound Production HNC

UCAS Code 316W

The first year of our BA (Hons) Audio Engineering, this course could help you forge a career in studio recording and production, live sound and design, or multimedia application including digital media, gaming and web sounds. Content includes: audio skills; digital audio workstations; sound production graded unit 1; recording and mixing; skills for business; sound for live events; and creative music re-mixing.

Entry requirements: Highers: C; A levels: D, preferably including Music, Physics, Maths or English. You may be required to attend an interview.

You can study this course full time or part time at Perth College UHI and North Highland UHI (Alness).

Technical Theatre HNC

Technical Theatre and Production Arts HND

UCAS Code 144W/044W

These courses address the growing industry demand for well-trained, capable individuals to provide technical support to the cultural sector in performance venues and for various event activities. You will gain hands-on experience of a broad range of technical disciplines including lighting and sound systems, stage management and set construction. A major component of the courses is work experience with established venues across the region.

Entry requirements (HNC): Highers: C; A levels: D; or other relevant qualifications or experience may be considered.

You can study these courses full time at Perth College UHI.
Textiles HNC/HND
UCAS Code 124J/224J

These creative, design-led, courses offer experience in surface decoration, creative textile development, and drawing and design development relating to the production of fashion, interior and accessory design. They are portfolio-based courses that encourage the exploration and experimentation of materials, media and techniques to provide a broad range of skills and knowledge in textiles and fashion design. You will have the opportunity to explore these subjects by producing a portfolio of work and creating a textile and fashion collection.

Entry requirements (HNC): Highers: C; A levels: D; or an NC in a relevant subject area. Individual competence in textiles-based skills evidenced by a portfolio of work will also be considered. You will also be required to attend an interview.

You can study these courses full time or part time at West Highland College UHI.

Visual Communication HNC/D
UCAS Code 712W/312W

The first two years of our BA (Hons) Visual Communication and Design, these practical, skills-based courses explore a wide range of creative tools and techniques relevant to graphic design, photography, moving image and illustration. You will work on a range of creative projects and undertake live project work in liaison with industry, enhancing your employment opportunities.

Entry requirements (HNC): Highers: C; A levels: D; NCs in: Art, Design and Media, or Computing with Digital Media; University of Arts London Diploma Level 3 Award; or Foundation Apprenticeship in Creative and Digital Media. You may be required to submit a portfolio and attend an interview.

You can study these courses full time or part time at Inverness College UHI, Moray College UHI and Perth College UHI.
“The skills I’ve gained on the course have been so useful in my professional life. I create brand, pitch and sponsorship decks alongside assisting the CEO/Publisher to put together presentations and documents to secure brand partnerships or advertising sales for the magazine. Working and volunteering throughout my degree has definitely made me more appealing to employers so don’t wait till the end to get experience.”

Katie Coe graduated with a BA (Hons) Music Business from our Perth College UHI campus.

“I never thought drama school was something accessible to me, I thought it was out of my reach. But Inverness College UHI opened up that world to me. I learned so much during my time at college and that enabled me to move on to drama school.”

Nicholas Ralph graduated from the Royal Conservatoire of Scotland. He went on to star in theatre with Glasgow Citizens Theatre and the National Theatre of Scotland, before landing the lead role in James Herriot’s All Creatures Great and Small.
“I didn’t want to leave home for a university course in a big city when I wasn’t sure if that was the right course for me. This course allowed me to try out different creative practices and see what appealed to me. I work as a graphic designer but also as a freelance designer/illustrator creating artwork for clients, including children’s book illustration. I was a commissioned artist for Oor Wullie’s Big Bucket Trail. ”

Charlie Dear graduated with a BA (Hons) Visual Communication and Design from our Perth College UHI campus.

“Having been a professional photographer for years I wanted to move into film and this high-quality course seemed the perfect way to learn these new skills and was available on my doorstep. I was worried I might be too long out of the education system, but I’ve adapted quickly and enjoy the blended learning on campus and at home with the flexibility to study in my own time, while continuing to work.”

John Balkie is studying on the BA (Hons) Contemporary Film Making in the Highlands and Islands at our North Highland College UHI campus.

“I was extremely lucky to be able to organise a placement with one of my favourite artists, Michael Forbes. It gave me such confidence and developed my understanding of what it takes to be an artist. I would never have thought I would have had a solo show and be exhibiting internationally before I had even completed the course.”

Leah Davis graduated from the BA (Hons) Contemporary Art and Contextualised Practice at our Inverness College UHI campus.
Why choose **GAELIC MEDIUM STUDIES?**

The university is supportive of the Gaelic culture of the Highlands and Islands and beyond and is committed to providing a range of courses both through the medium of Gaelic and about Gaelic language and culture. We are regarded as a key institution in delivering Gaelic language education and, through our PGDEs in Gaelic medium teaching, have helped increase the supply of Gaelic medium teachers. Study with us and you will be part of a wider Gaelic-speaking community.
Am measg nam prìomh chinn-uidhe airson ceumnaichean le Gàidhlig tha rianachd phoblach, gnìomhachasan cruthachail, foghlan agus turasachd.

Stòr: Rannsachadh ‘Gàidhlig mar mhaoin’ aig lomait na Gàidhealtachd agus nan Eilean.

Key destinations for Gaelic speaking graduates include public administration, creative industries, education, and tourism.

We also offer a BA (Hons) Gaelic Scotland (see page 11) and joint degrees with Gaelic studies (see page 25).
Gaelic and Development BA (Hons)

This course aims to provide you with an education and training in Gaelic language and community development. You will compare Gaelic and its communities with minority languages and cultures elsewhere and you will have the opportunity to spend a semester at a university in Ireland or Canada. With specialists in the Gaelic language very much in demand throughout Scotland, it will give you an excellent grounding in minority language planning and explore how it is applied in areas today.

Cùrsaichean Gàidhlig CertHE

| Faic duilleag 63 |
An Cùrsa Adhartais CertHE
UCAS Code Q501

This part-time, online course offers you the opportunity to develop your confidence in all aspects of communication skills in Gaelic and will improve your prospects in securing employment in the Gaelic sector. It will also provide you with a solid foundation for further Gaelic medium study.

Entry requirements: Highers: CC; A levels: C, preferably including Gaelic at grade B or above. Alternatively, our An Cùrsa Inntrigidh, or other relevant qualifications or experience, will be considered. You must attend an interview to assess your Gaelic language skills.

You can study this course part time at Sabhal Mòr Ostaig UHI.

An Cùrsa Comais CertHE
UCAS Code Q501

This intensive, interactive course is for intermediate-level learners aiming for fluency in the language. The major focus is on language skills, both speaking and writing, but other subjects are introduced as the course progresses. You will study at the heart of vibrant, Gaelic-speaking communities on the Isles of Skye or Lewis.

Entry requirements: Highers: BBC; A levels: BC, preferably including Gaelic (learners) or Gàidhlig (fluent speakers) at grade B or above. Alternatively, our An Cùrsa Inntrigidh, or other relevant qualifications or experience, will be considered. You must attend an interview to assess your Gaelic language skills. PVG scheme memberships is required for specific optional modules.

You can study this course full time at Lews Castle College UHI and Sabhal Mòr Ostaig UHI.

Gaelic and Communication CertHE
UCAS Code Q501

This course for proficient Gaelic speakers, allows you to study Gaelic to an expert level in a fully Gaelic-speaking environment. You will study Gaelic development, literature, creative writing (short story and song), and public speaking, as well as gaining a thorough understanding of the Gaelic language. On successful completion, you will be able to speak, read and write Gaelic with complete confidence.

Entry requirements: Highers: BBC; A levels: BC, preferably including Gaelic (learners) or Gàidhlig (fluent speakers) at grade B or above. Alternatively, our CertHE An Cùrsa Adhartais, or other relevant qualifications or experience, will be considered. You must attend an interview to assess your Gaelic language skills. PVG scheme memberships is required for specific optional modules.

You can study this course full time and part time at Lews Castle College UHI, and part time only at Sabhal Mòr Ostaig UHI.
An Cùrsa Adhartais CertHE
Còdan UCAS Q501

Bheir an cùrsa pàirt-ùine air-loidhne seo cothrom dhut do mhisneachd a leasachadh anns gach taobh de sgilean conalaith sa Ghàidhlig agus leasaichdhe e na tha thu an dùil anna n cosnadh a dhéanamh tèarainte ann an roinn na Gàidhlig. Bheir e bunait làidir dhut cuideachd airson tuilleadh sgrùdaidh tro mheadhan na Gàidhlig. Faodaidh tu an cùrsa seo a sgrùdadh pàirt-ùine aig Sabhal Mòr Ostaig UHI.

An Cùrsa Comais CertHE
Còdan UCAS Q501

Tha an cùrsa dian, eadar-ghnìomhach seo airson luchd-ionnsachaidh aig ire eadar-mheadhanach a tha ag amas air fileantas anns a’ chànan. Tha am priomh fòcas air sgilean cânain, gach cuid labhairt agus sgrìobhadh, ach cuspairean eile air an toirt a-steach mar a thèid an cùrsa air adhart. Faodaidh tu an cùrsa seo a sgrùdadh làn-ùine aig Colaisde a’ Chaisteil UHI agus Sabhal Mòr Ostaig UHI.

Gàidhlig is Conaltradh CertHE
Còdan UCAS Q501

Tha an cùrsa seo do luchd-labhairt comasach Gàidhlig a’ ceadachadh dhut Gàidhlig a sgrùdadh gu ire eòlaiche ann an àrainneachd làn Gàidhlig. Nì thu sgrùdadh air leasachadh Gàidhlig, litreachas, sgiobhadh cruthachail (sguelachd ghoidir agus òran), agus labhairt poblach, a bharrachd air tuigse dhomhainn don Ghàidhlig a choileanadh. Nuair a bhios tu deiseil, bidh comas agad air Gàidhlig a bhruidhinn, a leughadh agus a sgrìobhadh le lán mhisneachd. Faodaidh tu an cùrsa seo a sgrùdadh làn-ùine agus pàirt-ùine aig Colaisde a’ Chaisteil UHI, agus pàirt-ùine a-mhàn aig Sabhal Mòr Ostaig UHI.

I wanted to show young learners that languages such as Gaelic can be fun and accessible for all. The highlights of studying have to be the placements. This is your first real taster of teacher life and you start to build relationships with pupils and realise, 'I can actually do this! Thank you to the university for equipping me with the skills, courage and motivation to pursue a career in teaching!"

Diane Bruce studied on the An Cúrsa Comais Gaelic immersion course before completing the BA (Hons) Gaelic and Education at Sabhal Mòr Ostaig UHI.

I enjoyed the course because they brought in people currently working in industry to teach us the skills that employers are looking for. The most exciting of these was when we got intensive training from a renowned director, John Smith. By the end of it, every one of us had directed a 30 minute TV programme filled with a cookery segment, music and interviews."

Steven Mackinnon studied on the PgDip Gaelic with Media at Sabhal Mòr Ostaig UHI.
"Bha mi airson a thaisbeanadh do dhaoine òga gum faod cânanan leithid Gàidhlig a bhith spòrsail agus ruigsinneach do na h-uile. Tha fios gur e na greisean-gniomhachais na puingeán as cudromaiche de sgrùdadh. Is e seo a’ chìad bhas agaibh de bheatha teagaisg agus sibh a’ toiseachadh a’ togal dhàimhean le sgoilearan agus a’ tuigsinn, ‘Is urrainn dhomh seo a dhèanamh ann an da-riribh!’ Taing don oilthigh airson m’ uidheamachadh leis na sgilean, misneachd agus miann air dreuchd-beatha ann an teagasan a leantainn! ”

Rinn Diane Bruce a sgrùdadh air a’ chùrsa bogaidh Gàidhlig, An Cùrsa Comais, mus do chuir i crioch air a’ cursa BA (Urram) Gàidhlig is Foghlam ann an Sabhal Mòr Ostaig UHI.

“Chòrd an cùrsa rium a chionn ’s gun tug iad a-steach proifeiseantaich gniomhachais gus na sgilean a theagagsg dhuinn a tha luchd-fastaidh a’ sireadh. B’ e seisean tréanaidh dian am fear bu bhrosnachail dhiuchb sin le stiùrrieche ainmeil, Iain Mac a’ Ghobhainn. Aig an deireadh, bha gach aon againn air prògram TBh de 30 mionaid a stiùireadh, air a lionadh le piosan còcaireachd, ceòl agus agallamhan.”

Bha Steven MacFhionghain air a’ chùrsa Dip HE Meadhanan Gàidhlig ann an Sabhal Mòr Ostaig UHI.
Why choose EDUCATION AND CHILDCARE?

Education represents an investment, not just in our children, but in our culture, society, and economy. A qualified workforce plays a central role in children’s development, learning and behaviour to give them the best possible start in life. If you are interested in a career in this area, why not start with our child and youth studies degree? Or, if teaching is your vocation, then our BA (Hons) Food, Nutrition and Textiles Education, and BA (Hons) Moral and Philosophical Studies with Religious Education may be of interest. These are a first for teacher education in Scotland, and are supported by the Scottish government, to train new teachers in these areas.

The Graduate Apprenticeship BA in Early Learning and Childcare is a great route into the early years sector: it gives you the opportunity to study, gain work experience and get paid!

Beth Beazley
Graduate Apprentice, Early Learning and Childcare
I started on the NC Early Education and Childcare and then completed the BA Childhood Practice. I have since secured a new, senior role with a clear progression route towards management.

Michael Duthie
BA Childhood Practice graduate

We were delighted to welcome Michael to the Apple Tree Nursery. After working as an Early Years practitioner he then moved to a Room Leader position and has built wonderful relationships with children, parents, and staff. He continued to commit to his academic studies and we are delighted that his hard work and commitment has been recognised with a Student of the Year Award.

Laura Geekie
Manager and joint owner, Apple Tree Nursery, Perth
Food, Nutrition and Textiles Education BA (Hons)

If you are interested in becoming a home economics secondary school teacher then this unique course is for you. Supported by the Scottish government to increase the number of home economics teachers, it is a first for teacher education in Scotland. The first two years focus on developing your practical skills in food and textiles, within both industry and secondary school environments. The last two years focus on education research, pedagogy, and professional and reflective practice, with school placements. You can apply for the full degree or enter year two with HNC Professional Cookery.

**Other information**

There are subject specific entry guidelines for secondary teaching stipulated by GTC Scotland. PVG scheme membership is also required. See website for details of these requirements.

**Study method**

- Face-to-face lectures and tutorials
- Practical kitchen workshop sessions
- Practical teaching in schools
- Online study

**Campus**

Perth College UHI

**Features**

- Dedicated specialists and lecturers with strong industry links
- Balance of theory and practice throughout
- Develop key practical activities within our dedicated, purpose-built facilities
- Opportunity for vocational placements with industry
- You will be offered an induction year teaching post on successful completion
Moral and Philosophical Studies with Religious Education BA (Hons)

This contemporary new degree is ideal if you are considering a career as a Religious Education (RE) or Religious, Moral and Philosophical Studies (RMPS) teacher in a secondary school setting. It would also be of interest to those wishing to explore theological, moral and philosophical issues and debates, who would like to gain an understanding of how to lead learning. Supported by the Scottish Government, it has been developed to address the shortage of skilled teachers in this area, and combines academic study in theology, ethics and philosophy, with vocational training as a teacher.

Other information

An aptitude for teaching and working with young people should be displayed in your application. You must also attend an interview. PVG scheme membership is also required: see website for details.

Study method

- Video conference lectures and tutorials
- Online study
- Some face-to-face may be possible based on your location
- Practical placements in local schools

Campus

Inverness College UHI (further locations to be confirmed: see website for details)

Features

- Combines academic study in theology, ethics and philosophy with vocational training as a teacher
- Dedicated specialists and lecturers with strong community links combined with the support of a dedicated education mentor
- 30 weeks of practical teaching elements arranged through the national school placement system and local authorities across Scotland
- Access to an extensive specialist library of around 65,000 volumes
Child and Youth Studies BA (Hons)

This course is an ideal preparation for a career in child and youth work. Delivered fully online, it will give you a rigorous understanding of the child and youth issues in the Highlands and Islands and within the broader context of the UK and Europe. The course celebrates diverse childhood experiences and explores the complex situations and challenges they present. During your studies you will carry out a research project related to your work or area of special interest.

It is not available for international students requiring a Student Route visa to study in the UK |

Study method

Online study

Graduate Apprenticeship

We also offer a Graduate Apprenticeship BA in Early Learning and Childcare: see page 72

Campus

- Argyll College UHI
- Inverness College UHI
- Lews Castle College UHI
- Moray College UHI
- North Highland College UHI
- Orkney College UHI
- Perth College UHI
- Shetland College UHI
- West Highland College UHI

Features

- Ideal preparation for a career in child and youth work
- Undertake a research project related to your work or area of special interest
- Specifically tailored to the needs of rural areas
- The flexible delivery method allows you to fit your studies around your personal and professional commitments
- Individual modules can be completed for personal or professional development (CPD)
Childhood Practice BA (Hons)

This online, part-time course offers practitioners in a wide range of childhood practice settings the opportunity to gain the Scottish Social Services Council (SSSC) recognised qualification to be a lead practitioner. You will relate theory to real working practice and investigate, in-depth, an area of interest to you. The course is designed to meet the Scottish subject benchmark statement, the Standard for Childhood Practice. On completion, you will also be well equipped to take further professional qualifications or a PGDE.

Structure and entry

<table>
<thead>

Graduate Apprenticeship

We also offer a Graduate Apprenticeship BA in Early Learning and Childcare: see page 72

Campus

- Argyll College UHI
- Inverness College UHI
- Lewis Castle College UHI
- Moray College UHI
- North Highland College UHI
- Orkney College UHI
- Perth College UHI
- Shetland College UHI
- West Highland College UHI

Features

- Delivered entirely online so you can study from anywhere in Scotland
- Offers flexible study routes based on previous qualifications and relevant workplace experience
- Completing the ordinary degree (BA) gains you the SSSC recognised qualification to be a lead practitioner
- Modules focus on practical skills in the workplace so you can link your professional practice with theory, current policy and legislation
Childhood Practice HNC

UCAS Code 173X

Giving direct access into year two of the BA (Hons) Child and Youth Studies (see page 70) or, after some work experience, to the BA (Hons) Childhood Practice (see page 71), this nationally recognised HNC covers all aspects of working in a range of childcare settings, supporting children and young people with varying needs, and includes a sixty-day work placement. Subjects include: care in contemporary society; leadership starts with me; health, wellbeing and safeguarding; and support for play learning and development. On successful completion you will be eligible to register with the Scottish Social Services Council (SSSC) at practitioner level.

Entry requirement: Highers: CC; A levels: D; preferably including English, plus four National 5s, or equivalent, one of which should be English if you do not have a Higher or A level; or NC Early Education and Childcare/Childhood Practice; or a Foundation Apprenticeship in Social Services (Children and Young People). Experience in a relevant setting or similar work, either in a voluntary capacity or as an informal carer, is essential. PVG scheme membership is required to undertake this course: see website for details.

You can study this course full time and part time at most of our campuses: see website for more details.

Graduate Apprenticeship in Early Learning and Childcare

We offer a Graduate Apprenticeship BA in Early Learning and Childcare (SCQF Level 9) which is delivered across the Highlands and Islands. Completion of the programme will also enable registration as a Practitioner with the Scottish Social Services Council. The programme enables apprentices to achieve a relevant degree while in employment and gain practitioner status within three years.

See www.uhi.ac.uk/apprenticeships for more information.
“Having started my family young I knew I would focus on my career later. I study online which allows me to learn and be at home. It’s been the best experience of my life so far! I’ve always wanted to gain a degree and make something of myself. After this course I plan to apply for the PGDE and become a primary school teacher.”

Rebecca Ross is studying part time on the BA (Hons) Childhood Practice.

“Now I’ve gained my PGDE, I’m teaching a composite class of primary one and two pupils. Teaching in the ‘new normal’ is a little different, and I have taken on many roles, including serving lunches and keeping pupils hands clean. It is a little unusual as I’m teaching in the school I attended as a pupil myself, 35 years ago!”

Fraser Szymborski-Welsh graduated with a Postgraduate Diploma in Education (Primary) from our Inverness College UHI campus.
“ I originally studied dance and trained in London where I completed my degree in theatre arts but having spent so long away from my friends and family I was ready to come home and begin my teaching career. The student placements really elevated me as a practitioner. You cannot learn about being in a classroom without being in a classroom! ”

Jade McIntyre graduated with a Postgraduate Diploma in Education (Primary) from our Inverness College UHI campus.

“This year has been really exciting! I’ve had the opportunity to teach textiles to pupils who visit the university. It was so much fun and I’m so looking forward to getting out and teaching full time. ”

Jennifer Thompson is studying in the fourth year of the BA (Hons) Food, Nutrition and Textiles Education at our Perth College UHI campus.

“I enjoyed myself from day one at the induction - where I met a lot of people who all had the same goals and objectives and they were also all really friendly. It has helped me to make friends for life and allowed me to build the confidence that I needed both professionally and personally. The staff were amazing at supporting me during my journey at Perth College UHI. “

Michael Duthie started on the NC Early Education and Childcare course and later graduated from the BA (Hons) Childhood Practice at Perth College UHI. He was also awarded their Further Education Student of the Year for 2020.
Why choose HEATH AND WELLBEING?

People are at the heart of the health and wellbeing services and play a significant role in improving the health and wellbeing of communities. Our School of Health, Social Care and Life Sciences, embraces the totality of health education and is the leading provider in our region for health, care and wellbeing education and employer engagement.

Alongside our world-leading research into areas covering social prescribing, diabetes, and rural health, our portfolio includes innovative programmes such as our BSc Nursing, which combines the best of teaching, technology, and simulation, with practical experience. Our BSc (Hons) Optometry, one of only two programmes in Scotland aligned to the requirements of the General Optical Council (COC), combines placements in community practice and hospital eye clinics with skills training at our purpose-built training facilities in Inverness and Elgin.

I have gained so much experience working on medical, surgical and rehabilitation wards at the Western Isles hospital. I have been out with the community nurses and have had placements in a local care home and hospice.

Emily MacNeill
BSc Adult Nursing graduate
NHS Scotland is the biggest employer in the country, providing jobs to people in more than 70 different professions. It employs around 160,000 staff as part of a total of 400,000 health jobs.

With our ageing population, the demand for optometry services is going to increase, so it is crucial that we have the workforce available locally to meet that demand. With this excellent optometry degree available in the local area, I hope that the graduates will make the decision to stay in the area where they trained and become our colleagues of the future.
Adult Nursing BSc
Mental Health Nursing BSc

If you are a caring and compassionate person and would like to help make a difference to people's lives then nursing could be for you. Our BSc in Nursing (Adult or Mental Health) is an innovative programme that combines the best of teaching, technology, simulation, and practice experience to prepare you for an exciting career in nursing. You will have the opportunity to experience and learn about nursing care in different contexts including placement opportunities in a wide range of hospital and community settings, while developing critical reading, appreciation and analysis, numeracy, and literacy skills.

- Experience nursing practice in a diverse range of contexts, including island, urban, remote, and rural settings
- Career opportunities within Scotland, the UK and beyond
Health and Social Studies BA (Hons)

This fully online honours degree focuses on topical health issues including sociology, psychology, public health, rural health issues, the integration of health and social care and health care ethics. You will be introduced to the many factors that influence health and wellbeing and what it means to be healthy. Each year you will progressively build on this knowledge and look more closely at health promotion, public health, ethics, digital technology, partnership working and collaboration, and skills in research. Diverse options are also available allowing you to choose a number of modules to enable study in areas of health of particular interest to you.

Integrative Healthcare BSc (Hons)

This degree is the only one of its kind in Scotland and has been developed, in consultation with industry, to closely reflect the changing requirements of the healthcare sector in the UK and abroad. You will develop an in-depth knowledge and understanding of complementary therapies, research and healthcare, while enhancing your analytical, critical thinking and problem-solving skills. Throughout the degree there is an emphasis on the wide range of diverse and complex perspectives of health, particularly social policy, ethics, the law, politics, physiology, and sociology.

Optometry BSc (Hons)

Through this innovative, interactive degree you will develop the knowledge and skills needed to work as an optometrist in today’s challenging health care environment. From year one, you will undertake a combination of placements in community practice and hospital eye clinics, alongside clinical skills training. You will spend 19 weeks in placements, with an extended placement in the final year. You will also gain in-depth theoretical knowledge and practical experience, and develop key skills, including critical thinking, problem-solving and patient management from an early stage, which will be vital for your future practice.

Structure and entry

UCAS Code B510

| Year 1 CertHE | Higher: ABBB  
A levels: BBB  
The above must include two science subjects at grade B or above from the following: physics, biology or human biology, chemistry, or mathematics. English at Higher is preferred. For fuller details and other entry prerequisites see website for details

- Workshops and practical skills sessions
- Clinical placements
- Online study

Campus

- Centre for Health Science, Inverness
- Moray College UHI, Elgin

Features

- One of only two in Scotland, the course holds General Optical Council provisional approval
- Access to specialist on-site clinical facilities
- Clinical placements seeing real-life patients in real-life settings across all years of study
- Extensive clinical skills training, case studies, and scenarios, complemented by community and hospital placements

For full information on course content and entry requirements visit: www.uhi.ac.uk/courses | 01463 279190
Oral Health Science BSc

This leading degree in Oral Health Science offers prospective students the opportunity to train for a structured professional career in dental hygiene and dental therapy, a sector currently experiencing a shortage in skilled practitioners. You will provide clinical and educational care in the community, including prevention, fillings, and treatment for periodontal (gum) disease. Throughout the course you will receive a thorough understanding in all aspects of dental care, including the latest in practical skills and procedures. Strong values, an ethical approach and good communication skills, as well as the ability to work well in a team, are essential.

- Face-to-face patient skills sessions
- Tutorials
- Online study

Campus

You will enrol at Inverness College UHI or Lewis Castle College UHI

Teaching sessions are run at the Centre for Health Science in Inverness, Dumfries Dental Centre, and Western Isles Dental Centre in Stornoway, Isle of Lewis. If you wish to study in Dumfries you should apply to Inverness College UHI

Location offered will depend on applicant numbers.

Features

- Delivered in state-of-the-art training units
- Learn clinical skills and undertake treatments in supervised patient clinics
- Taught by a professional team of clinical and academic staff
- Clinical placements in dental clinics in the final year
- On successful completion, register with the General Dental Council as a dental hygienist and dental therapist
Psychology  BSc (Hons)

If you are fascinated by the science of the human mind and what leads people to behave in certain ways, then this degree is ideal for you. Throughout the course you will develop the critical skills of analysis and evaluation, effective communication and efficient problem-solving, skills in demand by employers in a variety of sectors. Through residential study weeks, you will engage in fascinating exploration of topic areas with fellow students and staff and attend seminars by research and applied psychologists. On graduation, you will have developed a rounded understanding of the key domains in psychology, with specific knowledge of specialist areas.

- Engage in fascinating topic areas through residential experiences
- Seminars delivered by research and applied psychologists
Beauty Therapy HNC/HND
UCAS Code 113B/013B

These courses will give you all the necessary skills and experience to succeed in the field of beauty therapy, both nationally and internationally. You will benefit from direct contact with clients throughout your studies. Subjects may include: applied anatomy and physiology; product knowledge; face and body treatment packages; promotional and selling skills; and contemporary aesthetic treatments.

Entry requirements (HNC): Highers: C; A levels: D; preferably in English or a science-related subject, plus 3 National 5s or an SCQF level 6 programme, or equivalent. Alternatively, NC Beauty Care, or SVQ3 Beauty Therapy.

You can study these courses full time or part time at Inverness College UHI and Perth College UHI.

Fashion Make-up HNC
UCAS Code 154W

If you want to develop your expertise in fashion make-up and related activities, this course is ideal. You will develop your skills in make-up techniques, personalised to your own individual interests. The course covers essential and classic make-up skills, fashion and photographic techniques, alongside hairdressing skills that focus on styling techniques and long hair design. You will have the opportunity to produce a professional portfolio of work that will support you in gaining employment in this vibrant and exciting fashion related industry.

Entry requirements: Highers: C; A levels: D; both in a relevant subject area, plus a core skill profile at SCQF level 5; or hairdressing or beauty courses at SCQF level 6; or S/NVQ3 or equivalent. Applicants with relevant work experience will be considered on an individual basis, plus interview.

You can study this course full time or part time at Inverness College UHI.
Healthcare Practice HNC
UCAS Code 115L

This course (formerly Care and Administrative Practice) will give you the required skills and knowledge for a range of career opportunities in nursing, health and allied health professions. It will also prepare you for the new registration requirements for health care support workers and is preparation towards becoming an associate practitioner. On completion you will be able to pursue a career in a health-related profession or pre-registration nurse education. You can also progress to the BA (Hons) Health and Social Studies (see page 79).

Entry requirements: Highers: CC; A levels: C; preferably including English or a science-related subject. Alternatively, an appropriate Group Award at level 6 such as NC Health and Social Care with either 1 Higher at grade C or above or with profile grades at CCB; SWAP Access to Nursing; or a Foundation Apprenticeship Social Services and Healthcare. Occupational Health clearance and PVG scheme membership is required to undertake this course.

You can study this course full time at Moray College UHI and Perth College UHI.

Social Services HNC
UCAS Code 114L

This nationally recognised and valued award is for those who want to work in a variety of social services settings, supporting individuals with varying needs. You will gain an understanding of the values and principles of social services and learn how to integrate those values with the necessary skills and knowledge, including the importance of anti-discriminatory practice in line with the National Care Standards and Scottish Social Services Council Codes of Practice.

Entry requirements: Highers: CC; A levels: D; preferably including English; or an NC level 6 Group Award that includes Higher Care or a similar Higher; or completion of a Foundation Apprenticeship Social Services and Healthcare. You should also have experience in a social service setting or similar work, either in a voluntary capacity or as an informal carer. You may also be required to attend an interview. PVG scheme membership is also required to undertake this course.

You can study these courses full time or part time at most of our campuses: see website for details.
“It may sound daunting to go into full time education, especially when it’s three years training, but it passes before you know it. It’s been the best decision I’ve made regarding my career.”

Angela Reid graduated from the BSc Adult Nursing at our Department of Nursing and Midwifery, Stornoway campus.

“The style of teaching this year has been new territory for everyone - staff and students alike. A fully-online learning environment has required equal parts self-motivation from students and technological-resilience from staff! There were naturally some teething problems in the first few days but the lecturers were brilliant and it didn’t affect our progress or our learning.”

Darryl Geegan is studying on the BSc Nursing at our Department of Nursing in Inverness.
"Teaching on this degree varies between face-to-face, video conference, self-directed study, clinical skills sessions, and clinics with patients to learn and develop our clinical skills, so there really is something to suit everyone’s learning needs. You have your own personal academic tutor, who you can contact at any time and have regular one-to-one meetings with them."

Lauren Connolly is studying on the 3rd year BSc Oral Health Science at our Lews Castle College UHI campus.

"My dissertation explored positive psychology and tourism at an outdoor winter festival and for it I won the Citation for Excellence Award from the British Psychological Society. By continuing with my PhD studies here I’m helping to shape this university’s reputation and contribute to changes that may benefit residents."

Aniéle Viljoen-Steele graduated with a first-class honours from the BSc (Hons) Psychology at our Inverness College UHI campus and is now undertaking her PhD with the university.

"The style of teaching here is quite different with quite a bit of learning online. At first I was nervous about not being in a room with tutors and the rest of my class but you soon become used to it and grow to like it. E-books are available online which saves you so much money and means that you can study anywhere, anytime. Learning this way already made going into lockdown much more manageable."

Kelly-Anne Philip is studying on the BSc Oral Health Science at our Lews Castle College UHI campus.
Why choose BUSINESS, LEISURE AND TOURISM?

We offer a broad range of courses from business and management through to events and hospitality. Scotland provides unique world class travel and cultural experiences and with over 30% more employment in hospitality in our region compared with Scotland as a whole, the focus on this area will be key as we recover from the pandemic.

Our outdoor adventure and marine tourism courses offer you the chance to learn in the enviable setting of Fort William, Outdoor Capital of the UK, with outstanding assets right on your doorstep, while our unique golf provision, based in Dornoch, has excellent links to the nearby Royal Dornoch Golf Club.

Whatever your interest in this area, there is lots to choose from.

We work with the university on some exciting projects including performance sport, facilities investment and developing links to community sport. This collaboration helps contribute towards our vision of an active Scotland where everyone benefits from sport.
I have been very impressed with the proactive students who have engaged with my business and undertaken work placements with us, so much so I have employed people from this group and would do so again.

Fergus Weir
Managing Director, teclan ltd

All the hard work has paid off and I’m now a Graduate Audit Assistant with Johnston Carmichael Chartered Accountants. Once I complete the programme I will be a member of the Association of Chartered Certified Accountants.

Amy Barker
BA (Hons) Accounting and Finance graduate
Accounting and Finance BA (Hons)

This specialised degree provides the underpinning knowledge and technical skills highly sought after by employers in the accounting and finance sectors. Throughout the course you will cover a wide range of accounting concepts to provide you with an excellent grounding in the principles of financial and management accounting using manual and computerised approaches. With small classes offering a more personal experience of university, this programme is highly practical, encompassing contextual, theoretical, and technical skills to prepare you for a career in accounting and finance. This degree builds on industry-recognised HNC/HND courses giving you a good grounding for degree level study.

Marine and Coastal Tourism BA (Hons)

This course focuses on the many uses of the marine resource, how tourism interacts with these, and the challenges of developing sustainable marine and coastal tourism within the wider context of the marine sector and its associated activities. Aspects covered throughout the course include activity development, response to climate change, environmental and conservation objectives, the role of coastal communities in the development of tourism, management of customer expectations, and behaviours and analysis of marine sector legislation, from both a UK and international perspective. This integrated, practical course will give you the opportunity to gain experience, develop personal and leadership skills, and achieve National Governing Body awards in a range of activities.

Outdoor Education and Learning BA (Hons)

This honours degree focuses wholly on using the outdoors in education and learning and combines theory and practice to support you in becoming a truly comprehensive outdoor educator. You will explore how outdoor activities and learning opportunities can nurture and support participants to develop and grow through experiences such as early years outdoor learning sessions and school outdoor learning activities, through to expeditions or residential ventures. The course boasts strong partnership links within the sector and, through these, you will benefit from a range of activities, including guest lectures and relevant and valuable work placements to complement your studies.

Sport and Fitness BSc (Hons)

This honours degree is designed to be a diverse sport and fitness qualification with a focus on practical application of skills that enables you to put theory into practice. The course will provide scientific, underpinning knowledge and technical skills in this specialist field, as well as a solid foundation for a career in the sport and fitness industry. A large number of volunteering opportunities are available to support you in building strong vocational experiences alongside your academic profile. The university is a Higher Education Associate Partner with CIMSPA and this programme is a named Associated Course. We are one of two institutions in Scotland to hold this and the partnership offers many benefits for students.

These can also be taken as stand-alone courses, see pages 106-7
Sports Management BA (Hons)

This broad-based management qualification will introduce you to all aspects of today's modern sporting business. In the first two years of the degree, you will have the option of studying either coaching/developing sport, or fitness, health and exercise. In years three and four of your studies, modules will focus on sports management, complemented by a variety of work placement options. The course will equip you with the skills you will need for a career in sports management leading to roles such as sports development officer, leisure centre operative or sports manager, within public, private and voluntary organisations. This degree builds on industry-recognised HNC/HND courses giving you a good grounding for degree level study.

- Perth College UHI

Features

- Put your learning into practice through portfolio activity, projects, event management, live events and case studies
- Opportunity to be involved in a variety of events throughout, including a digital event in year three
- You can also choose option modules from our range of creative degrees, such as film making and music

HNC/HND Hospitality/Professional Cookery

These can also be taken as stand-alone courses, see pages 105-106
Accounting HNC/HND

UCAS Code 104N/004N

These courses, which form the first two years of the BA (Hons) Accounting and Finance (see page 90), will give you an ideal platform for a career in accountancy or a related management area, and provide exemptions from some UK professional body exams. You will study a range of subjects including economics, law, statistics, communications, personal enterprise skills, personal development planning and project management.

Entry requirements (HNC): Highers: C; A levels: D; preferably in a numeracy-based subject; or NC Accounting or NC Business (with a minimum of 70% accounting units); or a Foundation Apprenticeship in Accountancy, Business Skills, or Financial Services.

You can study the HNC and HND at Inverness College UHI, Moray College UHI and Perth College UHI. You can also study the HNC at Shetland College UHI.

Administration and Information Technology HNC/HND

UCAS Code 17PN/75NG

As a route into the BA (Hons) Business and Management (see page 91), these courses develop both the first-line management skills and knowledge required for office management or supervisory work, as well as advanced technology skills relevant to a modern office environment. You will undertake units in IT in business, office administration, and personal development planning. You may also choose to study optional areas such as marketing and personal enterprise skills.

Entry requirements (HNC): Highers: C; A levels: D; preferably including English, Administration, Business, or Accountancy; or a relevant NC qualification totalling at least 12 credits; a relevant NQ; or a Foundation Apprenticeship in Accountancy or Business Skills.

You can study these courses full time or part time at various campuses: see website for details.

Business HNC/HND

UCAS Code 001N/101N

As a route into the BA (Hons) Business and Management (see page 91), these courses allow you to gain much sought-after business skills and knowledge in areas such as accounting, economics, marketing, management, law, ICT, human resource management, recruitment, and digital marketing communications. The HND builds on the HNC and further develops business and management concepts and skills. The HND allows progression to year three of the BA (Hons) Business and Management.

Entry requirements (HNC): Highers: C; A levels: D; or an NC/NQ in Business, Administration, or Accounting at SCQF level 5; a Foundation Apprenticeship in Accountancy, Financial Services or Business Skills; or an Access to HN Business.

You can study these courses full time or part time at most campuses: see website for details.
**Events HNC**

**UCAS Code 128N**

This course provides a range of theoretical and practical skills understood and respected by employers from a diverse range of industries. Graduates will have a broad experience in organising and supporting events of all sizes. Subjects include event legislation, safety and licensing, event budgeting and funding, marketing, and workplace experience.

Entry requirements: Highers: C, plus 2 National 4 passes including English; A levels: D, plus 2 GCSE passes including English. Alternatively, SVQ level 3 in Hospitality Supervision and Leadership, City and Guilds level 2 Diploma in Professional Food and Beverage Service, NC Events Coordination, or a Foundation Apprenticeship in Business Skills.

You can study this course full time or part time at Inverness College UHI, North Highland College UHI, or Shetland College UHI.

**Fitness, Health and Exercise HNC/HND**

**UCAS Code 206C/006C**

These courses, which form the first two years of the BA (Hons) Sports Management (see page 99), will introduce you to the fundamental principles of training and science, the interdisciplinary nature of fitness and exercise, and how to involve individuals in their own fitness and health. Subjects include: exercise and fitness, health and safety management, nutrition for fitness, health and exercise, first aid for sport and fitness, and health screening.

Entry requirements (HNC): Highers: CC, A levels: DD; these should include English plus a science subject or Mathematics. Alternatively, a relevant NPA at SCQF level 6, or relevant Scottish Wider Access Programme (SWAP). PVG scheme membership is required in order to undertake these courses: see website for details.

You can study this course full time or part time at Inverness College UHI, Moray College UHI, and Perth College UHI.

**Hospitality/Hospitality Management HNC/HND**

**UCAS Code 522N/042N**

These courses, which form the first two years of the BA (Hons) Hospitality Management (see page 103), will give you the skills and knowledge needed to join this highly competitive industry. Subjects include: hospitality supervision, financial and control systems, food hygiene, food and beverage service, licensed premises operations, work experience and food production processes.

Entry requirements (HNC): Highers: C; A levels: D. Alternatively, SCQF level 5 Food and Hospitality Studies or Event Management, SCQF level 6 Supervision and Leadership or Professional Cookery, or a Foundation Apprenticeship in Business Skills.

You can study the HNC full time or part time at Argyll College UHI, Inverness College UHI, Moray College UHI, and Perth College UHI. You can study the HND full time or part time at Perth College UHI.
Professional Cookery HNC/HND

UCAS Code 122N/622N

These courses, which form the first two years of the BA (Hons) Hospitality Management (see page 103), have been designed for aspiring chefs who want to develop skills and knowledge in professional cookery and kitchen management. Subjects include: hospitality supervision, food classification and purchase, financial and control systems, and industrial experience.

Entry requirements (HNC): Highers: C; A levels: D. Alternatively, SCQF level 5 Food and Hospitality Studies or Event Management, SCQF level 6 Supervision and Leadership or Professional Cookery, or a Foundation Apprenticeship in Business Skills.

You can study the HNC full time or part time at Moray College UHI, North Highland College UHI, Orkney College UHI (part-time only), Perth College UHI and West Highland College UHI. You can study the HND full time or part time at Moray College UHI and Perth College UHI.

Soft Tissue Therapy HNC

UCAS Code 161B

This course, which forms the first year of the BA (Hons) Sports Therapy and Rehabilitation (see page 98), will give you the skills and knowledge needed to perform hands-on treatments with people who participate in sport. Subjects include sports therapy, anatomy and physiology, clinical sports massage, and prevention and management of sports injury.

Entry requirements: Highers: CC; A levels: DD; plus, a core skills profile at SCQF level 5 with communication at SCQF level 6, or equivalent, or relevant GCSE equivalent core skills; or NQs at SCQF level 6; or S/NVQ level 3 or equivalent, in an appropriate subject area. PVG scheme membership is required in order to undertake this course: see website for details.

You can study this course full time or part time at Inverness College UHI, Moray College UHI and Perth College UHI.

Sports Coaching and Development/Coaching and Developing Sport HNC/HND

UCAS Code 06XC/CX61

These courses, which form the first two years of the BA (Hons) Sports Management (see page 99), will allow you to develop an understanding of both the theoretical and practical issues relating to a career in sports coaching for indoor or outdoor sports. Subjects include: sports coaching theory and practice; coaching children; anatomy, physiology and energy systems; research in sport and fitness; and workplace experience.

Entry requirements (HNC): Highers: CC, plus 3 Standard Grades at 3 or above; A levels: DD; these should include English plus a science subject or Mathematics. Alternatively, a relevant NPA at SCQF level 6, or relevant Scottish Wider Access Programme (SWAP). PVG scheme membership is required in order to undertake these courses: see website for details.

You can study these courses full time or part time at Inverness College UHI, Moray College UHI and Perth College UHI.
Sports Therapy HND
UCAS Code 036C

The HND Sports Therapy forms the second year of the BA (Hons) Sports Therapy and Rehabilitation (see page 98) and builds on the HNC Soft Tissue Therapy. It will give you the knowledge and skills necessary to work as a sports therapist. Subjects include sports fitness and return to participation criteria, psychology of sports injury, electrotherapy, biomechanics and movement patterns, and clinical and team experience.

Entry requirements (HNC): Highers: CC; A levels: DD; plus, a core skills profile at SCQF level 5 with communication at SCQF level 6, or equivalent, or relevant GCSE equivalent core skills; or NQs at SCQF level 6; or S/NVQ level 3, or equivalent, in an appropriate subject area, for example, health or sport. PVG scheme membership is required in order to undertake this course: see website for details.

You can study this course full time or part time at Inverness College UHI, Moray College UHI and Perth College UHI.

Technologies in Business HNC/HND
UCAS Code 161I/261I

These courses are uniquely positioned to allow you to gain an essential and highly sought-after combination of technology and business skills. You will cover business operations, technology, project management and entrepreneurship, with opportunities to work on small projects and case studies with real employers. Modules include cyber resilience, big data, programming foundations, agile development and artificial intelligence, business culture and strategy, and social media for business. Subject to business-related units studied, you may be able to progress to our BA (Hons) Business and Management (see page 91).

Entry requirements (HNC): Highers: C; A levels: D; plus 3 National 5 passes or equivalent, preferably in a science-based or technology-based subject and/or business, mathematics or English; or NC in Computing or Business at SCQF level 6; or NPA at SCQF level 6 in Data Science, Business with Information Technology or Cyber Security.

You can study these courses full time or part time at Moray College UHI and Perth College UHI.
"Being on a small campus allowed the lecturers to form relationships with the students and this helped us to achieve and experience more than courses with larger enrolments. I liked the close-knit atmosphere at Fort William, as well as being close to the outdoors. The Highlands and Islands provide the perfect setting for both of these. I’m going to continue studying for a masters as I’d like to aim for a career within marine conservation."

Brodie Samuel Garritt graduated from the BA (Hons) Marine and Coastal Tourism at West Highland College UHI.

"Other courses based on outdoor studies I’ve seen to date have focussed on particular activities, areas or singular lines of study. I think the wide variety of content on this course and having the scope to gain an all-round understanding of the sector, helps you to determine a progression path beyond the programme."

Bryony Dillon is studying on the BA (Hons) Outdoor Education and Learning at Perth College UHI.
“This course provides a great insight into what outdoor education is and what factors go into its planning and delivery. It’s different to other courses in that there are huge elements of practical participation but with all the theory and philosophy to back up the methods applied. Plus, how many other students can say they had 4 years of skiing, canyoning, kayaking, climbing and many more adventurous activities including residential and work placements! ”

Graham Watson is studying on the BA (Hons) Outdoor Education and Learning at Perth College UHI.

“ This course starts off very broad and allows you to learn about all aspects of business management so you can decide on the area you wish to pursue. I enjoyed the marketing modules so during my third year I took a part-time placement with a local digital marketing agency, Teclan. I was taken back on a temporary contract and they offered me a full-time position at the end of my degree! ”

Jessica Stirling graduated with a BA (Hons) Business and Management from our Inverness College UHI campus.

“I wanted to learn about the golf industry at the ‘Home of Golf’. I have interned on world class golf courses such as the Duke’s at St Andrews and the Union League Golf Club, in Philadelphia. Everything I’ve learned I’ve been able to utilise during these placements and I’m confident the degree will provide me with a solid base to start my golf industry. ”

Giordano Antonucci graduated from the BA (Hons) Golf Management at our North Highland College UHI, Dornoch campus.
Why choose COMPUTING AND IT?

Communications and information technology is the force behind every modern business. Growth in this sector is expected to continue particularly within software development and engineering, and web development, as well as information and cyber security.

Our portfolio of courses is designed to meet industry requirements, and whatever course you choose, you can be sure of gaining a solid foundation for entering the workplace. The recent addition of our BA (Hons) Applied Software Development, which uniquely simulates real working practice, is the result of a collaboration with IBM, one of the leading technology companies in the world, further enhancing our connections with industry.

The information and communications technology sector employs almost 80,000 people in digital technology roles.
IBM is excited about our collaboration with the university on the innovative Applied Software Development degree that will help students prepare for employment to the very highest standard.

Naguib Attia
VP Global University Programme, IBM

I run my own business and was able to carry on working while studying. I’ve managed to use almost everything I’ve learned on the courses in the real world; it has particularly improved my business and helped me to offer a better service to clients.

Andrew French
BA (Hons) Interactive Media graduate, and owner AJF Web Design
Applied Software Development BSc (Hons)

Are you a creative problem solver, passionate about using your skills to make a positive impact on the world? If so, this degree will give you the practical skills to tackle problem-based real-world challenges and the knowledge and hands-on experience to become the type of software developer that employers are looking for. Developed in collaboration with IBM, this course challenges the way software development has traditionally been taught. You will work in teams, learning through projects to develop a portfolio of work, while building employability skills in the technical, business and project management side of software development. With mentoring, guest lecturing and support from IBM, you will be guided along the career route of a junior developer. Intrigued? Find out more on our website!

Study method

Online study and team working: each day will typically begin with a short team meeting to set priorities

Video conference tutorials

Hear more about the study method on the course page of our website

Campus

You will apply to, and be supported by, either:

- Argyll College UHI
- Inverness College UHI
- Lews Castle College UHI
- Moray College UHI
- North Highland College UHI
- Orkney College UHI
- Perth College UHI
- Shetland College UHI
- West Highland College UHI

Features

- Access the latest technologies, supported by IBM, one of the largest technology consulting companies in the world
- Benefit from access to a programme of guest speakers, industry mentors from around the globe and the enhanced IBM Cloud
- Learn how to apply software to real-world challenges across a wide range of industries and communities
Computing BSc (Hons)

If you are looking for a successful career in the fast-moving computing industry, this honours degree is for you. You will gain the knowledge and skills that the sector requires, as well as developing key personal and intellectual qualities. Designed to meet employers’ requirements, you will be well-equipped to implement and manage web design and development projects to fruition. In years three and four you can choose to follow a generic computing degree or to specialise in software development or technical support, allowing you to exit with a themed award in either BSc (Hons) Computing (Software), or BSc (Hons) Computing (Networking). This degree builds on the industry-recognised HNC and HND courses, giving you a good grounding for degree level study.

Other information

Please check our website for fuller details of this course

Study method

- Face-to-face and video conference lectures and tutorials
- Online study

Campus

- Argyll College UHI
- Inverness College UHI
- Lews Castle College UHI
- Moray College UHI
- North Highland College UHI
- Orkney College UHI
- Perth College UHI
- Shetland College UHI
- West Highland College UHI

Features

- Undertake a team project where you will be involved in the delivery of an ICT-related product for an external client
- Contribute to the management, configuration and utilisation of live internet servers to provide web-based services
- Study full-time or part-time to suit your personal circumstances or study individual modules for personal or professional development

These can also be taken as stand-alone courses, see page 116
Interactive Media BSc (Hons)

This honours degree aims to give you a professional grounding in the development of interactive and digital media products, while allowing you the scope to specialise in several key areas and work with external clients on real industry projects. The term ‘interactive media’ defines a collection of disparate technologies which provide a user experience using digital platforms. These range from websites, mobile apps, software applications and even interactive installations. Digital content creation goes hand-in-hand with an understanding of interactive media, and disciplines such as graphic design, 2D/3D animation, video and audio production all form part of the subject area. This course will encourage your creativity and entrepreneurial qualities and also give you the solid theoretical and technical understanding you need to succeed.

HNC/HND Digital Design and Development

These can also be taken as stand-alone courses, see page 117

Campus

- Argyll College UHI
- Moray College UHI
- Shetland College UHI

Features

- Gain technical skills in a wide range of disciplines including web, mobile apps and computer games
- Develop your creative thinking in a variety of contexts for the creation of digital media
- Live projects give learners experience of working with real-world clients
Computing/Computer Science HNC/HND

UCAS Code 304G/001I

These courses, which form the first two years of the BSc (Hons) Computing (see page 113), will provide you with useful foundations for a successful career in computing and technology and allow you to progress from HNC to HND and onto the degree programme. Subjects include professionalism and ethics in computing, computer systems, developing software, troubleshooting computing problems, relational database management systems, developing websites for multiplatform use, and managing a web server.

Entry requirements (HNC): Highers: C; A levels: D; plus 3 National 5 passes, or equivalent; NC Digital Media Computing; NC Multimedia Computing; Intermediate 2 Business, Administration and Computing Studies; SVQ Information Technology; Foundation Apprenticeship ICT in Software Development or Hardware/System Support; or a relevant Scottish Wider Access Programme (SWAP): see website for fuller details of entry requirements.

You can study these courses full time or part time at: Argyll College UHI, Inverness College UHI, Lews Castle College UHI, Moray College UHI, North Highland College UHI, Orkney College UHI, Perth College UHI, Shetland College UHI, and West Highland College UHI.
Digital Design and Web Development/Digital Design and Development HNC/HND

UCAS Code 1071/0071

These courses, which form the first two years of the BSc (Hons) Interactive Media (see page 114), aim to develop the skills required for the digital media industry. Successful completion of the HNC can allow progression to year two (HND) and then on to the third year of the BSc (Hons) Interactive Media. They will equip you with a broad knowledge of the principles surrounding the development of interactive and digital media products, as well as skills within a number of key areas including graphic design, 2D animation, web design, app/game development, and audio/video production and programming.

Entry requirements (HNC): Highers: C; A levels: D; or NC Computing with Digital Media at SCQF Level 6; Foundation Apprenticeship Creative and Digital Media; or a relevant Scottish Wider Access Programme (SWAP): see website for details.

You can study these courses full time or part time at Argyll College UHI, Moray College UHI, Shetland College UHI and West Highland College UHI.
“My fellow students and I were entered into a week-long, online international coding competition hosted by IBM, to come up with software solutions to climate change issues. We were up against a significant number of teams from around the world, many of which already had years of experience under their belt. We won first place in two of the three categories in the Call for Code Spot Challenge. I’m incredibly proud of myself and the class for what we achieved, and in the short 10 weeks that the course had been running. Personally, I feel this can be attributed to the course structure, which has provided us with lots of collaborative and technical experience due to its hands-on approach.”

Davis Ansons is studying on the first year of the BSc (Hons) Applied Software Development at Inverness College UHI.
"Currently I work as a vocational training advisor which involves designing and building a web-based system for a local food distribution organisation for poverty recording. I’m using skills from almost every module from my degree years. The job was brought to my attention by a lecturer and they suggested that I had the necessary skills so I applied for the job and started preparing for the interview."

Ewan Forsyth completed the BSc (Hons) Computing at Perth College UHI.

"For the past eight years I’ve also been lecturing at the university alongside my professional work in audio programming and digital signal processing. Recently, I’ve been engaging with a talented development team on the creation of the new BSc (Hons) Applied Software Development. This ambitious new course, which is delivered in collaboration with IBM, is an exciting development for the university."

Douglas Barr is a lecturer in computing and digital technology, business computing and hospitality.
Why choose

SCIENCE AND
ENVIRONMENT?

Life and environmental sciences form a strong, vibrant, and expanding sector of the Scottish economy employing more than 37,000 people. Study a science or environment-related course with us and you will benefit from the rich learning experience offered by our unique landscape.

Our teaching and world-renowned research covers the important issues of today including climate change and managing the natural resources. From marine and environmental science, to geography, sustainable development, or forest management, our courses will provide you with the skills and experience necessary for a rewarding career in this world-changing industry.

The collaboration with industry enables students to make valuable contacts (which is hugely beneficial) and provides a deeper understanding of the coursework by relating it to real world examples.

Gillian Smith
BSc(Hons) Applied Science graduate, now employed at LifeScan
The BSc (Hons) Marine Science course at the Scottish Association for Marine Science (SAMS) UHI is a source of dedicated high calibre graduates ready to enter the workplace. CuanTec have successfully tapped into this local resource on multiple occasions, employing alumni within our technical staff and myself as Head of Science.

Dr Tracy White
Head of Science, CuanTec

I would recommend studying geography at the university. The accessibility and proximity of the environments are key parts of the coursework, making them even more relevant.

John Dunnet
BSc(Hons) Geography graduate, now employed at Angus Davidson Ltd
Bioscience BSc (Hons)

This new degree offers skills and practical experience in subjects including biology, biochemistry, genomics, laboratory practice and instrumentation. It focuses on recent advances in a variety of scientific fields. You will learn laboratory techniques used in disciplines such as microbiology, biochemistry, chemistry for biology, molecular biology, and genomics. On completion of the degree, you will have had a well-rounded experience in modern science and gained the skills required for employment in industries such as biotechnology, food and drink sector, microbiology, environmental analysis, and scientific research.

Structure and entry

UCAS Code C902

Year 1 CertHE

- Highers: BCC; must include two science subjects, one of which should ideally be Maths
- A levels: CC; including one science subject
- You must also have a National 5, or equivalent, in Chemistry and Maths
- Alternatively: an appropriate Access to Science course; Foundation Apprenticeship in Food and Drink Technologies plus 2 Highers in science (Chemistry or Biology) and English, and National 5 Maths, or Foundation Apprenticeship Scientific Technologies (Laboratory Skills) plus one Higher in Science and National 5 Chemistry; NC Applied Science level 6; Scottish Wider Access Programmes (SWAP); or other qualifications or experience may be considered: see website for details

Year 2 DipHE

- Advanced entry may be possible with the HNC Applied Sciences (120 credits), (see page 130), and at least grade B in the Graded Unit, or other relevant HNC

Year 3 BSc

- Advanced entry may be possible with the HND Applied Science, preferably with grade A in the Graded Unit, or other relevant HND

Year 4 BSc (Hons)

Other information

- PVG scheme membership is required to undertake specific optional modules: see website for details

Study method

- Face-to-face and video-conference lectures and tutorials
- Weekly practical laboratory sessions at your location of study
- Online study

Campus

- Inverness College UHI
- Moray College UHI
- North Highland College UHI
- Perth College UHI

Features

- Gain valuable experience of laboratory practice in chemistry, biology and instrumentation used in industry
- Prepares you for employment in a wide range of scientific disciplines
- High importance is given to practical skills and data handling
Environmental Science BSc (Hons)

If you are passionate about understanding the processes that shape our natural environment and are keen to develop the scientific and analytical skills required to work as an environmental scientist, then this degree is for you. You won’t find a better classroom in which to study than in the Highlands and Islands of Scotland, undeniably one of the world’s best ‘living laboratories’. You will develop core scientific and analytical skills through coursework in laboratories and access to specialist analytical equipment. A key part of the course is undertaking an annual residential field module which will allow you to develop your field skills while working in some of the most outstanding habitats.

Structure and entry

UCAS Code F900

Year 1 CertHE

Highers: CCC

A levels: CC

The above must include a science subject plus National 5, or equivalent, in Chemistry at Grade C

Alternatively: a Foundation Apprenticeship Scientific Technologies (Laboratory Skills) plus one Higher at Grade C and National 5 in Chemistry at Grade C, or equivalent; Scottish Wider Access Programmes (SWAP); or other qualifications or experience will be considered on an individual basis: see website for details

Year 2 DipHE

Advanced entry may be possible with the HNC Applied Sciences (see page 130), or Countryside and Environmental Management

Year 3 BSc

Advanced entry may be possible with the HND Countryside Management

Year 4 BSc (Hons)

Other information

PVG scheme membership is required to undertake specific optional modules: see website for details

Study method

Face-to-face and video conference lectures and tutorials

Practical laboratory sessions

Field trips

Work placement

Online study

Campus

Argyll College UHI

Moray College UHI

North Highland College UHI

Perth College UHI

Features

- Study in the Highlands and Islands of Scotland, one of the world’s best ‘living laboratories’
- Undertake a residential field module each year at locations throughout the region
- Access to specialist analytical equipment and laboratories
- Gain industry experience in year four through a work placement
Marine Science BSc (Hons)

This course gives you the chance to study in a real research environment, in internationally-renowned state-of-the-art marine laboratory facilities, at the Scottish Association for Marine Science UHI on Scotland’s west coast. With a wealth of marine and coastal environments on your doorstep you will have first-hand access to marine science experts. During field work you will learn how to collect samples and data on research vessels and develop excellent laboratory skills. In the third year you can choose to study at the University Centre in Svalbard (UNIS) in the Arctic Circle, Van Halls Laurenstein in the Netherlands, or coastal Carolina, USA. On graduation, you can exit with a BSc (Hons) Marine Science with Arctic Studies, or a BSc (Hons) Marine Science with Oceanography and Robotics.

Campus

Scottish Association for Marine Science (SAMS) UHI

Features

- Choose to specialise and exit with a BSc (Hons) Marine Science, with either Arctic Studies or Oceanography and Robotics
- Access state-of-the-art laboratory facilities and advice from expert marine researchers
- Access to specialist analytical equipment and laboratories
- Opportunity to study in the Arctic Circle, the Netherlands, or the USA, in year four
Archaeology and Environmental Studies BSc (Hons)

This degree gives you the opportunity to study in one of the best natural and archaeological landscapes in the UK and focuses on the scientific aspects of archaeology combined with sustainability issues, techniques in field-based evidence, and ethics. The course’s residential field modules, based at some of the best conservation sites in the Highlands and Islands, will enable you to develop your environmental and archaeological skills. The skill sets that you develop will provide opportunities for you to pursue a career across a variety of research, policy and interpretation roles, in a wide range of wildlife and heritage organisations.

Features

- Develop your skills in some of the UK’s best sites for nature or heritage conservation
- Combine two subjects in this joint honours degree
- Your work placement in year four will give you the opportunity to engage with external agencies
- You can study full time or part time to suit your personal circumstances

Study method

| Video conference lectures and tutorials |
| Field trip |
| Online study |

Campus

- Argyll College UHI
- Highland Theological College UHI
- Inverness College UHI
- Lews Castle College UHI
- Moray College UHI
- North Highland College UHI
- Orkney College UHI
- Perth College UHI
- Shetland College UHI
- West Highland College UHI
Geography BSc (Hons)

If you are inspired and curious about the world around you, then this course could be for you. Studying an exciting mix of physical, environmental, and human geography, you will develop a wide range of knowledge and skills needed for the modern workplace. There is a strong employability thread throughout the course which includes a work placement module with an external agency. Field trips are a valuable and memorable part of studying geography and several day trips in the local area, as well as residential field trips in Scotland, are offered. With the amazing geography of the Highlands as your classroom, what better place could there be to study this subject?

Structure and entry

<table>
<thead>
<tr>
<th>UCAS Code</th>
<th>F820</th>
</tr>
</thead>
</table>

**Year 1 CertHE**
- Highers: CCC, at least one of which must be Geography or a related science and humanities subject, plus National 5 English and Maths
- A levels: CC, must include Geography
- Alternatively: a relevant Access to HE Diploma or BTEC National at MMM or DD in a relevant subject, Scottish Wider Access Programme (SWAP), or other qualifications or experience, will be considered on an individual basis: see website for details

**Year 2 DipHE**
- Advanced entry may be possible with a relevant HNC or through Recognition of Prior Learning (RPL)

**Year 3 BSc**
- Advanced entry may be possible with a relevant HND or through Recognition of Prior Learning (RPL)

**Year 4 BSc (Hons)**
- Other information: PVG scheme membership is required to undertake specific optional modules: see website for details

Study method

- Face-to-face tutorials
- Practical sessions
- Field Trips
- Work experience
- Online study

Campus

Inverness College UHI

Features

- Study in the Highlands and Islands of Scotland, an area of outstanding geographical and environmental interest
- You will benefit from small class sizes and group working
- Develop practical and employability skills through your work placement
- Assessment of the core modules is through course work; very few exams
Forest Management BSc (Hons)

This highly practical degree will give you the technical skills and knowledge needed to become a successful forest or arboriculture manager, providing professional advice to the land-based forestry sector, and helping sustain and secure our forests for future generations to enjoy. Studying at the Scottish School of Forestry, you can choose to specialise in either forest management or arboriculture and urban forestry. Fieldwork-based projects will make up much of your study where you will become experienced in the practical aspects of your chosen speciality. The degree builds on the industry-recognised HNC/HNDs in the first two years.

Structure and entry

<table>
<thead>
<tr>
<th>UCAS Code</th>
<th>D500</th>
</tr>
</thead>
</table>

**Year 1**

| HNC Forestry or Arboriculture and Urban Forestry | Highers: CC, or B plus four National 5s at B or above |
| A levels: DD |
| Minimum of one year's pre-course experience in a woodland environment is required or attainment of Certificate in Forestry or Conservation Skills (may be waived for those with three or more Highers at grade C). Alternatively, Scottish Wider Access Programmes (SWAP), or applicants with relevant life or work experience, will be considered on an individual basis: see website for details |

**Year 2**

| HND | Advanced entry may be possible with the HNC Forestry or Arboriculture and Urban Forestry: see pages 130-131 |

**Year 3**

| BSc | Advanced entry may be possible with the HND Forestry or Arboriculture and Urban Forestry: see pages 130-131 |

**Year 4**

| BSc (Hons) | For arboriculture, a reasonable level of fitness and a good head for heights is required. Forestry students must undertake a one-year placement and will therefore study the course for five years (also open to arboriculture students): a driving license is a prerequisite for this placement: see website for details |

Other information

**Study method**

- Face-to-face and video conference lectures and tutorials
- Practical sessions
- Field work
- Work placement
- Online study

**Campus**

Inverness College UHI (Scottish School of Forestry)

**Features**

- Graduate with a degree in either forestry or arboriculture and urban forestry
- One-year industry placement in year two
- Study trips in Scotland, the rest of the UK, or Europe
- Gain partial fulfilment of Professional Membership Entry to the Institute of Chartered Foresters
Equine Business Management BA (Hons)*

This highly practical course will equip you with the skills required for a career in equine business management, including marketing, research, sports science, and specific equine modules such as current issues and legislation, equine behaviour, and welfare. Guest speakers and the use of equine evidence-based research will provide you with relevant and current industry information, while your project work will allow you to put your learning into practice. The course offers unique flexibility with a choice of riding or non-riding routes (or a mix of both), and access to our equine campus and horses. There is also the option to study from home, working with a BHS accredited coach or equivalent, at your own expense (not available to students on a Student Route visa).

Study method

- Face-to-face and video conference lectures and tutorials
- Practical sessions at stables
- Online study

Campus

North Highland College UHI

Features

- Access to our purpose-built equestrian centre, where you will be taught by staff highly experienced in the industry
- Choose to follow a riding or non-riding route, or mix of both
- Opportunities to take part in equestrian events and activities may be offered
- Endorsed by the British Horse Society as training towards BHS exams

* subject to revalidation
Equine Studies HNC

UCAS Code 624D

This course provides the theoretical and practical training to deal with a variety of horses to a high standard and includes a business management element. You will receive training towards your BHS exams which are held at the centre. You may also have the opportunity to work at stables throughout the country and take part in local competitions.

Entry requirements: NC Equestrian Skills or Business Studies. Applicants with other qualifications or experience will be considered on an individual basis. Rotational weekend work from November to March is a requirement of the course, normally one week in four.

You can study this course full time or part time at North Highland College UHI.
**Agriculture HNC**  
**UCAS Code 104D**

This husbandry-based course has been designed to provide you with the many practical skills involved in the multi-disciplines of agriculture practice. The technical knowledge gained will enhance your employability skills and career prospects in arable or livestock farming. You will gain knowledge in arable crop production, animal welfare, health and safety, environmental issues, and climate change.

Entry requirements: Highers: C; A levels: D; plus at least three National 4, or other equivalent qualification passes. Alternatively, an NC Agriculture or SVQ Level 3 in Agriculture with some work-based experience.

You can study this course full-time or part time at Argyll College UHI.

**Applied Sciences HNC**  
**UCAS Code 0CFG**

This is a broad-based course offering an introduction to advanced level science. You will study a range of topics including cell biology, chemistry, ecology, maths and physics for life science. Throughout the course you will acquire a range of practical skills and experience in science disciplines to prepare you for employment or further study. The course provides a strong base for progression to higher level study, such as our BSc (Hons) Bioscience (see page 122) and the BSc (Hons) Environmental Science (see 123).

Entry requirements: Highers: C; A levels: D; in a science subject, preferably Biology, Chemistry or Physics; plus National 5 Chemistry or biology, or equivalent. Alternatively: an NC or NQ in a science related subject; Foundation Apprenticeship in Food and Drink Technologies, plus a Higher Science, or Foundation Apprenticeship Scientific Technologies (Laboratory Skills); plus National 5 Chemistry or Biology, or equivalent, plus interview.

You can study this course full time or part time at Inverness College UHI, Moray College UHI and Perth College UHI.

**Arboriculture and Urban Forestry HNC/HND**  
**UCAS Code 115D/015D**

These courses provide training and development to prepare you to manage, organise and supervise tree works and urban forestry operations, or to start up your own business. You will study topics including arboriculture practice, employment and health and safety legislation, forest science, job costing and business calculations, forest design, woodland ecology, and work supervision practice, and have the option of a one-year placement between the HNC and HND year of the course. You may progress from HNC to HND and on to our BSc (Hons) Forest Management (see page 127).

Entry requirements (HNC): Highers: CC; or B, plus four National 5s at B or above; A levels: DD; or Certificate in Forestry or NPA Woodland Operations. A driving licence is a prerequisite for the optional placement year.

You can study these courses full time or part time at the Scottish School of Forestry, part of Inverness College UHI.
Forestry HNC/HND  
UCAS Code 105D/005D  
These courses provide you with the technical, supervisory and managerial skills necessary for employment in forestry and woodland management. You will study topics including forest science, establishment of woodlands, forest mensuration and thinning control, and forest harvesting, and have the option of a one-year placement between the HNC and HND year of the course. You may progress from HNC to HND and on to our BSc (Hons) Forest Management (see page 127).

Entry requirements (HNC): Highers: CC; or B, plus four National 5s at B or above; A levels: DD; plus a minimum of one year’s pre-course experience in a woodland environment or attainment of the Certificate in Forestry (may be waived for those with three or more Highers at grade C). A driving licence is a prerequisite for the optional placement year.

You can study these courses full time or part time at the Scottish School of Forestry, part of Inverness College UHI.

Gamekeeping with Wildlife Management HNC  
UCAS Code 094D  
This course will give you the theoretical and practical 'hands-on' training in all aspects of gamekeeping, including deer management, conservation and public relations. Studying at North Highland College UHI’s Rural Studies Centre, you will have access to a wide range of land holdings, and have the opportunity to undertake a work placement on a local sporting estate or reserve, with accommodation included.

Entry requirements (HNC): NC Highland Gamekeeping. Applicants with relevant life and work experience may be considered on an individual basis.

You can study this course full time or part time at North Highland College UHI, Thurso campus.

Horticulture HNC/HND  
UCAS Code 154D/014D  
These practical courses will provide you with a broad knowledge of horticulture and landscape, and will develop your understanding of the characteristics, growth and use of plants. You will study subjects including horticulture, plant recognition and use, plant growth and development, soil management, plant physiology, planting design, organic production systems, and plants and habitats.

Entry requirements (HNC): Highers: C; A levels: D; or an NC Horticulture, City and Guilds Horticulture at level 6, or equivalent SCQF level 6 course.

You can study these courses full time or part time at Argyll College UHI or Moray College UHI (HNC only): see website for further location options.
“My time studying at the university was a fantastic experience. The course is delivered entirely online, so our annual residential was a fantastic way to put faces to the online personas, see new places, learn and have fun. Another great experience was being welcomed into the Environmental Research Institute at the Thurso campus for my dissertation on biochar.”

Marie Stonehouse graduated from the BSc (Hons) Sustainable Development at Argyll College UHI.

“I was a lab technician in a secondary school but I needed a degree to advance in my job. I chose this course so that I could study a broad range of science at university level. The course will help me get the job that I want and it will show employers that I have a broad range of practical skills and that I understand the theory behind them too.”

Thomas Thompson is studying on the BSc (Hons) Bioscience at Perth College UHI.
“A campus visit for an apprenticeship sparked my interest to apply for the course. The industry and the course modules appealed to me but the main benefit I saw was the 2nd year placement to gain experience and be better prepared for a job after the course. This placement has given me plenty of support, opportunities and experience and I now have a much clearer idea about the industry and my future career direction.”

Fraser Gilchrist is studying on the HND Forestry at the Scottish School of Forestry at Inverness College UHI, and is currently undertaking a placement in Forest Operations at Natural Resources Wales (NRW).

“Geography was always one of my favourite subjects at school, so I knew I wanted to study it at university. The course covered a wide range of topics and the small class size made this a really friendly and positive experience. There was lots of group involvement and interaction between tutors and classmates, which I really enjoyed. The support from tutors was great and they always went out of their way to help.”

Rachael Cross graduated from the BSc (Hons) Geography at Inverness College UHI.
Why choose ENERGY, ENGINEERING AND CONSTRUCTION?

The energy sector is fast changing and diverse. With the move to a net zero society, the way we produce, process, transport and use energy will be very different in the near future, with new energy sources and alternative fuels technologies being developed. Aerospace, advanced manufacturing and battery technologies are just three of the engineering areas where companies based in our region are at the forefront of innovation.

The construction and built environment sector in the region is as unique as our geography and boasts major civil engineering projects such as hydro power, to the conservation of many historical buildings that draw tourists from around the globe. Studying one of our courses in this sector will give you the opportunity to be at the forefront of these globally important developments.

I started the engineering skills course while at school; continued my studies as an apprentice; and eventually graduated with a BEng Mechanical Engineering with distinction. It was a long journey, but I achieved this while working full time at Dounreay Nuclear Decommissioning, and I am grateful for their support.

Jack Hamilton
Mechanical Technician, Dounreay Nuclear Decommissioning
The university’s engineering programme plays an integral part in the advancement of our team at Nuvia. The fact that our staff can access such high-level courses locally is a key benefit for us, for our employees and for the local community.

Keith Vallance
Design Office Manager, Nuvia Ltd, Caithness, a leading international provider of world-class engineering services

Our engineering and business apprentices and graduate development programmes rely on the close working relationship with the university.
Architectural Technology BSc (Hons)

This course will provide you with the valuable and essential skills to make you a highly employable architectural technologist. You will gain the theoretical and project-based skills required within a modern architectural practice, including an excellent understanding of managing projects from conception through to completion. The course combines simulated design office practice, site visits and regular project work to ensure that you gain the necessary skills demanded by the architectural industry, such as building information modelling and technical design. The majority of our employer partners recruit from our course and indicate that our graduates are effective contributors to their practices from day one.

- Design studio and group work
- Online study

Campus

Inverness College UHI

Features

- Opportunity to work on live projects during your studies
- Dynamic, interactive lectures with site visits and architectural tours
- Project-based workshops and design studio work with visiting professionals
- Study 2D and 3D Computer Aided Design in an advanced design suite
- Option to study online, from home, in years three and four
Civil Engineering BEng (Hons)

This course is designed to enhance career prospects by helping students to develop and demonstrate a sound grasp of civil engineering principles in both design and contracting. You will be taught by a team of enthusiastic lecturers with extensive experience and will benefit from strong industry links and professional practice, giving you the skills required to improve your employment opportunities. Regular site visits, guest presenters and live project work will enhance your experience. We use expanding lab facilities and current technology in the delivery of our course, and you will be introduced to themes of clean construction and digital innovation throughout the programme.

Inverness College UHI

Features

- Live project work will form part of your coursework submissions
- Excellent lab equipment includes structural analysis, geotechnical labs and materials testing
- The first two years are accredited by the Joint Board of Moderators (JBM) on behalf of the Engineering Council, for the purposes of fully meeting the academic requirement for registration as an Engineering Technician (EngTech). Accreditation is being sought for the final two years.
Electrical and Electronic Engineering BEng (Hons)

Electrical and Electronic engineering is a rapidly growing field, with expanding opportunities in practically every product from electrical super-grids to nanoscale bioelectronics. This course, which is highly industry relevant, will prepare you for a rewarding career in a vast majority of industries from offshore oil to the National Health Service. The degree is applications based using specialist software, laboratory investigations and case studies. It will provide you with the specialist knowledge and broad engineering skills required to find innovative solutions to multiple challenges, ranging from solving the global energy crisis to designing life-saving equipment. Access to this degree is only available from year two and is aimed at those who have an HNC or equivalent qualification in an engineering subject.

Electrical and Mechanical Engineering BEng (Hons)

The BEng (Hons) Electrical and Mechanical Engineering has been designed to meet the demand from employers for engineers who have a wide knowledge and skills base covering a range of engineering disciplines, including a sound understanding of relevant technologies and current industry practices. On completion of the degree, you will have acquired advanced levels of competence in engineering and technology, including mechanical, electrical, electronic and management skills, making you highly sought after in the job market. The broad-based nature of this course will give you many of the necessary skills and competencies required by a range of industries. Access to this degree is only available from year two and is aimed at those who have an HNC or equivalent qualification in an engineering subject.

Energy Engineering BEng (Hons)

If you are interested in the role energy plays in the future of engineering, the BEng (Hons) Energy Engineering degree is for you. The degree has been designed to meet the needs of the industry, ensuring you will be highly employable after graduation. You will explore both conventional energy systems and renewable energy technologies and will develop a comprehensive knowledge and skills base, while studying emerging technologies. You will also undertake an engineering project, which will showcase your skills and knowledge in solving an industry-related problem to prospective employers. Access to this degree is only available from year two and is aimed at those who have an HNC or equivalent qualification in an engineering subject.

Aircraft Maintenance Engineering and Management BEng (Hons)*

This course is designed to produce graduate calibre aircraft maintenance engineers and meets the syllabus requirements of the European Aviation Safety Agency (EASA) and United Kingdom Civil Aviation Authority (UKCAA) Category B1.1 aircraft maintenance licence syllabus (EASA Part-66). Delivered in conjunction with Air Service Training (Eng) Ltd, the longest established aviation maintenance training organisation of its type in the world, it provides you with the opportunity to obtain an Approved EASA and/or UKCAA Part-66 Certificate of Recognition, in addition to a degree.

Structure and entry

**UCAS Code H410**

| Year 1 CertHE | Highers: BBC; one of these must be Maths; you must have grade B or above in either Maths, Physics or Engineering Science, plus National 5 English at grade C  
| | A levels: CC; one of these must be Maths, plus GCSE Physics at grade B and English at grade C  
| | Alternatively: a Foundation Apprenticeship Engineering level 6; NC level 6 in an engineering discipline, plus National 5 Physics at grade B and National 5 English at grade C; or other qualifications or experience, will be considered on an individual basis: see website for details |

| Year 2 DipHE | |

| Year 3 BEng | Advanced entry may be possible with an EASA Part-66 category B approved course, plus possible bridging where required, or a full category B Licence |

| Year 4 BEng (Hons) | |

Other information An optional professional training package is offered in the third year of the course. A financial penalty also applies if you leave the course early: see website for fuller details

Perth College UHI

**Features**

- Taught by staff with a wealth of industry experience and knowledge
- World class facilities include hangar spaces for practical activities that simulate an active commercial maintenance environment
- Benefit from close links with the global aviation industry
- Benefit from AST RAeS (Royal Aeronautical Society) corporate membership

* subject to accreditation
Aircraft Engineering BEng (Hons)*

The BEng (Hons) Aircraft Engineering is an exciting degree that will equip you with an in-depth engineering knowledge across a broad range of modern aeronautical technologies. You will combine the knowledge and skills required of an aircraft engineer to analyse complex aircraft engineering situations and solve aeronautical engineering problems. A range of optional modules in years three and four will allow you to choose areas of specific interest to you. A work placement module will also allow you to actively engage with industry. The course is currently going through re-accreditation with the Royal Aeronautical Society: please check our website for up-to-date information on this and any possible changes to the course.

**Aircraft Engineering HNC/HND**

**UCAS Code 014H/114H**

These engineering technician-level courses have content similar to the European Aviation Safety Agency (EASA) syllabus for certifying aircraft mechanics within the aviation operations industry. You will study subjects including aerodynamics, aircraft propulsion systems, aircraft structures and material, aircraft gas turbine engines, aircraft avionics and electrical systems, and aircraft inspection and repair. Successful progression from both the HNC and HND will allow advance entry to year three of our BEng (Hons) Aircraft Engineering (see page 143).

Entry requirements (HNC): Highers: C; A levels: C; in Maths or Physics, plus English at Standard Grade credit level or equivalent; NC/NQ Engineering at SCQF level 6; Foundation Apprenticeship Engineering; or equivalent: see website for more details.

You can study these courses full time or part time at Perth College UHI.

**Architectural Technology HNC**

**UCAS Code 732K**

This course has been designed to provide an additional access route to degree study in the built environment. Taught in the same culture and environment as our BSc (Hons) Architectural Technology (see page 136), you will become immersed in practical design studio work, with projects allowing you to build a strong portfolio of work to take on to degree level study. Successful completion of the course will allow direct entry to year two of the degree programme.

Entry requirements: Highers: CC; preferably in Maths, Physics, Graphic Communication, Design and Manufacture, Art and Design, Geography, or English. Alternatively, an NC Built Environment or the completion of a Foundation Apprenticeship Civil Engineering.

You can study this course full time at Inverness College UHI.

**Built Environment HNC**

**UCAS Code 221K**

This course will prepare you for a career within the built environment in roles such as architectural technician, construction manager, quantity surveyor or CAD technician. You will develop knowledge and skills in areas such as building measurement, cost studies, environmental building science, building services, construction materials, sketching and drawings, sustainability, and off-site construction. Our excellent links with employers will provide opportunities to work on live projects and placements, alongside site visits and case studies, all of which will help to contextualise your learning.

Entry requirements: Highers: C; A levels: D; with National 5 Maths, or equivalent; or NC Built Environment; NC Civil Engineering; Foundation Apprenticeship Civil Engineering; SVQ (SCQF level 6) in Construction or a related discipline; or a Construction Craft Certificate with appropriate further study: see website for more details.

You can study this course full time or part time at Inverness College UHI.
Civil Engineering HNC
UCAS Code 102H

The course is accredited by the Joint Board of Moderators (JBM) on behalf of the Engineering Council, for the purpose of fully meeting the academic requirement for registration as an Engineering Technician (EngTech). On successful completion you will be qualified to take up roles as a civil engineer at technician level. Alternatively, you may wish to consider progression to year two of our BEng (Hons) Civil Engineering (see page 137). The course can also form part of a Modern Apprenticeship or can be studied on a part-time block release basis as a stand-alone qualification, offering the flexibility to combine study and work. Subjects include: CAD 2D1; civil engineering: specialisms; mathematics for construction; construction site surveying; structural mechanics; and construction technology: substructure.

Entry requirements: Highers: C; A levels: D; in Maths. Alternatively: an NC Civil Engineering, or a Foundation Apprenticeship Civil Engineering. Those without the standard entry requirements, but with appropriate construction-related experience will also be considered.

You can study these courses full time or on a part-time block release basis at Inverness College UHI.

Construction Management HNC/HND
UCAS Code 252K/052K

These courses will give you the knowledge and skills to enter the construction industry at a supervisory level. You will cover subjects such as project management, Scottish law (construction), planning, managing teams, human resource in construction, sustainability, and off-site construction. Our excellent links with employers will provide opportunities to work on live projects and placements, alongside site visits and case studies, all of which will help to contextualise your learning.

Entry requirements (HNC): Highers: C; preferably Maths, Graphic Communication, or a science subject; A levels: D; preferably Maths, Physics, or Graphical Communication. Alternatively: NC/NQ in a construction-related subject; Foundation Apprenticeship Civil Engineering; Advanced Certificate Carpentry and Joinery, or Bricklaying; SVQ Carpentry and Joinery, or Bricklayer; or NQ Advanced Certificate Building Crafts. You may be required to attend an interview.

You can study the HNC full time at Perth College UHI, and part time at: Argyll College UHI, Inverness College UHI, Moray College UHI, North Highland College UHI, Perth College UHI, Shetland College UHI, and West Highland College UHI. You can study the HND full time at Inverness College UHI.
Engineering Systems HNC/HND
UCAS Code 356H/056H

These courses will give you the required technical training to be a technician in design, research, development and service support activities in engineering, manufacturing, and consultancy. They are designed to meet the needs of employers and you will study both mechanical and electrical engineering principles. The university is currently developing a new work-related engineering degree of which the first two years will comprise these industry-recognised HNC/D courses. Successful completion of these will allow advanced entry in to this new degree programme: please check our website for up-to-date information.

Entry requirements (HNC): Highers: C; A levels: D; in Maths or Physics; or NC/NQ Engineering at SCQF level 6, or equivalent; Foundation Apprenticeship Engineering; SVQ3 Electrotechnical Services; NC Engineering Systems; or NC Engineering. You may be required to attend an interview.

You can study these courses full time or part time at Inverness College UHI, Lews Castle College UHI, Moray College UHI, North Highland College UHI, and Perth College UHI. You can also study part-time at Argyll College UHI (evening only), and Orkney College UHI: see website for full details.

Graduate Apprenticeship in Civil Engineering

We offer a Graduate Apprenticeship (GA) in Civil Engineering up to honours degree level (SCQF Level 10), which is delivered through Inverness College UHI.

This also includes a two year SCQF Level 8 (Diploma in Higher Education) Graduate Apprenticeship that is ideally suited to employees looking to progress on from completion of a Modern Apprenticeship in Civil Engineering.

See www.uhi.ac.uk/apprenticeships for more information.
Merchant Navy Cadet Programme

If you are interested in serving as an officer on seagoing ships in the Merchant Navy this officer cadet training programme will give you a direct route into this career path. The programme combines study at our NAFC Marine Centre UHI campus, in Shetland, with periods working and learning at sea on board merchant ships. On successful completion, you will be qualified to serve as an officer of the watch on board a merchant ship anywhere in the world and will have gained a Certificate of Competency issued by the Maritime and Coastguard Agency (MCA), as well as an HNC in either Nautical Science or Marine Engineering (see below). You will also have completed other specialist short courses which are required to work at sea.

The programme, which usually runs over three years, offers two pathways which can lead to a career as either an engineer officer or a deck (or navigation) officer. As an officer cadet, you will be sponsored by a shipping company, ship management company, or by another organisation on their behalf, who will provide the sea service and at-sea training required to complete the programme. Your course fees and other training-related expenses will be paid by your sponsor and you will receive an allowance throughout your period of training.

Marine Engineering/Nautical Science HNC

UCAS Code 206J/006J

These courses form part of the Merchant Navy Officer Cadet Programme and train engineer officers and deck officers for the Merchant Navy. As an officer cadet you will be sponsored throughout your period of training and will learn through a combination of university-based study and service at sea on merchant ships. Further sea service and training will enable you to undertake HND studies, which will allow progression to higher ranks in the merchant navy, potentially to chief engineer or captain. You will also be eligible to progress to further academic study in relevant subjects.

Entry requirements: Four National 5s at Grade C or above, or GCSE passes, including English, Maths, and a science-based subject; or other relevant qualifications or experience will be considered on an individual basis. You will be required to complete a medical and fitness test: please see website for further entry prerequisites.

You can study these courses full time at NAFC Marine Centre UHI. It is also possible to undertake the HNC Marine Engineering as a one-year stand-alone course for which there would be no requirement to spend time at sea. Please contact NAFC Marine Centre UHI for further information.
“After my first year I applied for apprenticeships so that I could work and study at the same time. I was offered a job by the Highland Council who encouraged me to carry on with my degree while working in their design office. I really enjoy studying at the university, and because the class sizes are small, you get a lot of help and support from your lecturers.”

Emily Currie is studying on the BEng (Hons) Civil Engineering at Inverness College UHI.

“i found the lectures very engaging, and they made me excited to learn more. Each lecturer had a specific area of expertise and knowledge allowing a greater insight into that field. Apart from the course content, the main skills I have gained are project management, report writing and structure, teamwork, communication, cooperation, leadership, initiative and time management. It has been a great 4 years and I will miss the place.”

Grant McCathie graduated from the BEng (Hons) Aircraft Engineering and Air Transport Operations at Perth College UHI.
“There are many different routes to success. If, for whatever reason, you don’t follow the ‘standard route’ you can still get there in the end, and you might just gain more experience along the way! I worked for a local architect firm alongside my studies, which suited me well as I built up work contacts and experience along the way.”

Jordan McNeilage studied while working at CRGP Architects in Inverness. He graduated with a first-class BSc (Hons) Architectural Technology at Inverness College UHI.

“This particular course appealed to me as it allowed me to build on my previous business degree and combine it with 24 years’ practical experience in several different industries, primarily aviation. The online learning is great and so flexible that it allows me to work my full-time job around my study. You are never too old to continue learning and challenging yourself.”

Julie Cromarty is studying on the MBA Aviation.

“I started my studies at the university on an apprenticeship and ultimately wanted to become a chartered engineer. I continued through the HNC and HND route to the BEng (Hons) Mechanical and Energy Engineering, achieving first class honours. I am now studying for a masters in engineering.”

Mark Graham graduated with first class honours from the BEng (Hons) Mechanical and Energy Engineering and is now studying on the MSc Engineering at North Highland College UHI.

YOU CAN
CHOOSE THE
CAMPUS THAT
SUITS YOU

It might be close to home, offer a unique course that interests you, or there might be something special about the location that appeals.

www.perth.uhi.ac.uk
Lively student campus including the Academy of Sport and Wellbeing, in a beautiful historic city.

www.samo.uhi.ac.uk
The national centre for Gaelic language and culture on the stunning Isle of Skye.

www.sams.uhi.ac.uk
Internationally renowned marine science centre - cutting edge science in a world-class environment for marine studies.

www.shetland.uhi.ac.uk
Located on islands with a rich musical and cultural offering and a unique landscape opening up amazing outdoor opportunities.

www.whc.uhi.ac.uk
Providing learning opportunities across the area including Fort William, the outdoor capital of the UK, and home to the School of Adventure Studies.
Accommodation

The university offers purpose-built student accommodation with en-suite bedrooms and shared kitchen and living areas.

Students who have secured a conditional or unconditional offer are able to apply for a residence place. Application does not guarantee a place in the residence; rooms will be allocated on a first come first served basis. For further information and how to apply please visit our accommodation website:

www.uhi.ac.uk/accommodation

Designed around the needs of our students, rental fees include:

- central laundry facilities
- heating
- on-call support and help
- wi-fi
- secure cycle storage
- electricity
Starting at university can be a daunting prospect, especially if you are moving away from home. Finding the right accommodation will help you settle quickly into life as a student.

The following four campuses also offer dedicated student accommodation:

- Lews Castle College UHI
- Perth College UHI
- Sabhal Mòr Ostaig UHI
- Scottish Association for Marine Science UHI

**Private accommodation**

For campuses which do not have dedicated student accommodation, or for students who prefer private rented accommodation, assistance is available to find suitable lodgings if required. Types of accommodation and costs will vary depending on your location of study. For further sources of information about private accommodation for your chosen campus, please visit our website:

www.uhi.ac.uk/accommodation
At the University of the Highlands and Islands we are not just concerned with helping you to achieve success in the academic world, but also in translating your academic achievement to success in the working world.

Over the course of our lives we make frequent career decisions. You will not leave university as the finished article and in a world that changes constantly, we understand that you might be unclear about your future. However, we are here to support you throughout your studies and think about what the future might hold for you.

In order to do this we provide all students with a range of careers and employability services.

**Advice and support services**

Every campus has staff who are trained to help you with careers and employability questions.

In addition, careers information, advice and guidance is available to all students through the university’s Careers and Employability Centre and the FutureMe careers portal. Our services are not only available to you while you are a student: as a graduate you will have access to our services for life, helping you to manage and navigate your post-university career.

**Career development services offered by the centre include:**

- One-to-one consultations with trained careers advisers either through telephone, email or video conference
- A Job Shop including details of graduate jobs, internships, placements and volunteering opportunities
- CV and application form feedback
- Mock interviews (by telephone or video conference)
- Workshops and seminars (offered by video conference)
- Careers and labour market information

Further information about all of our services is available through FutureMe at:

[www.uhi.ac.uk/careers](http://www.uhi.ac.uk/careers)
Working for you
The Careers and Employability Centre works with both national and local employers to promote our students and generate job vacancies for our graduates. Our strong employer links also allow us to provide advice and guidance services that are responsive to the labour market.

Work experience and placement opportunities
Depending on the course you choose, you may have access to a structured work placement as part of your studies. Alternatively, you may choose to apply for a placement or internship advertised by the Careers and Employability Centre, or you may wish to seek voluntary work or work experience. We can help you to identify the options that suit you.

Your course and skills for employment
Feedback from employers suggests that alongside evidence of study and work experience, certain skills are also required of graduates. Our courses are structured to enable you to develop these graduate attributes for employment, including: communication; self-management; interpersonal skills; and social awareness.

“There are so many skills you learn from a humanities degree such as critical thinking and independent learning which you can translate in your career search. When researching for career openings use the amazing university’s career support network and stay optimistic. It’s difficult for everyone looking for openings during a pandemic and it’s not always possible to land your dream job straight out of uni. It took me around eleven months to find the opportunity I wanted here at Who Cares? Scotland and that’s totally OK. So stay confident and stay ambitious. You have some amazing skills.”

Sam Baillie graduated with a BA (Hons) Scottish History from our Perth College UHI campus.

A final comment
We encourage all our students to start thinking about their career and employability early in their course and to engage with the Careers and Employability Centre. By getting advice, obtaining information, gaining experience and connecting with people, you increase the likelihood that you will end up somewhere you want to be. (Even if it’s not the place you originally envisioned!)

We very much look forward to welcoming you to the university and hope to see you soon.
Further information about all of our services is available through our website:

www.uhi.ac.uk/careers
Student partnership
We were the first institution in Scotland to adopt the new Student Partnership Agreement. This sets out how students and staff can work together to improve the student experience. We are always looking for innovative ways in which our students can shape and influence our work.
www.uhi.ac.uk/student-partnership-agreement

Essential study skills
We offer a portfolio of information and resources, intended for use at key points during studies. The interactive modules have been designed for you to access at your own pace, and can be referenced throughout your journey with us. Content includes using technologies, becoming an effective learner, core skills, preparing for work, and much more.
www.induction.uhi.ac.uk

Students with disabilities
Wherever and however you are studying, if you have a disability and feel you would get more from your studies with some additional support, then please contact us as soon as possible. You may want us to arrange support, find someone with specialist skills, or help you make an application for financial support such as the Disabled Students’ Allowance. The information you give us will be shared with relevant others to help ensure that you are adequately supported throughout your student journey.

Library and learning resources
You will have access to a wide range of books, journals, e-books and other online resources, no matter how you choose to study. You can request books from across the university through the inter-site loan system. Part-time and distance learning students can access the libraries of other UK universities through the SCONUL Access scheme.
www.sconul.ac.uk/sconul-access

For more information on the library service, visit:
www.uhi.ac.uk/library

Accommodation
If you choose a location-based subject, you should contact the campus at which you will be studying and they can help you to find suitable accommodation for the duration of your studies. Private accommodation can often be cheaper in rural areas than in larger cities.

Health and wellbeing
Your health and wellbeing are priorities; looking after yourself will help you study better and give you more energy to enjoy your student experience with us. Visit our webpages for advice, guidance, and useful links.
www.uhi.ac.uk/health-and-wellbeing/

Getting involved
Making the most of student life is all about getting involved. There are a number of opportunities, from volunteering, to representation, to mentoring. For more information or to get in touch visit the website at:
www.uhi.ac.uk/en/students/get-involved

Childcare
Excellent childcare facilities are available at several of our campuses. Please visit our website for more information.

Funding Support
As the impacts of Covid-19 continue, our students’ need for financial support has increased and the university is grateful to a wide range of kind donors – individuals, businesses, trust and foundations – who provide financial help to our students through our Emergency Study Fund, scholarships, Student Development Fund, bursaries, prizes and awards. Students may also be eligible for discretionary, hardship and other government funds throughout the academic year and you can find more details here:
www.uhi.ac.uk/scholarships
International students

If you would like to study in a country of outstanding natural beauty, friendly communities, and cities buzzing with social life and activities, then the Highlands and Islands of Scotland should be your first choice.

Entry requirements and applications
We make offers of entry based on qualifications achieved worldwide. Admission to our courses depends on a proven level of competence in English. If English is not your first language you will be required to provide a recent secure English language test certificate at IELTS level 6.0, with no elements below 5.5, or equivalent. Courses that are validated for international delivery and are taught wholly online can only be studied from your home country.
For any campus-based courses, international students will be required to hold a valid Student Route visa.

Support and advice
Our dedicated international team is here to help you every step of the way. They will help you select the right course for you, guide you through the application process and support you with information and advice on visas, accommodation and other issues.
Accommodation is often a key consideration for overseas students. Most of our international students stay in self-catering accommodation or are placed with host families. Some of our colleges have modern, purpose-built student accommodation. Your chosen campus can assist with obtaining suitable accommodation.

Study abroad
If you are an international student enrolled at an institution overseas you may want to get a taste of studying abroad. A year or a semester at the university can be a great way of gaining first-hand experience of Scotland and its culture.
For more information on study abroad options contact: international@uhi.ac.uk

Contact
You will find lots of useful information on the international section of our website:
www.uhi.ac.uk/international
or you can contact us at: international@uhi.ac.uk
As an undergraduate student at the University of the Highlands and Islands, you are automatically a member of the Highlands and Islands Students’ Association (HISA).

HISA has several roles, but improving your student experience is at the heart of everything we do.

We offer representation and advocacy for around 40,000 students across the university. Our team also organises a wide range of events and HISA can help you to set up clubs and societies at your campus.

So if you need information or advice, have a great idea to share or want to put your hand up to represent your peers, please get in touch!

www.hisa.uhi.ac.uk
hisa@uhi.ac.uk
www.facebook.com/TeamHISA
www.twitter.com/TeamHISA
www.instagram.com/teamhisa/
“On behalf of the Highlands and Islands Students’ Association I would like to welcome you to the university of the Highlands and Islands. We are here to ensure your student experience at the university is as enjoyable and rewarding as possible. HISA is run by students for students and we are here to represent your student voice locally, regionally and nationally. Our officers lobby MSPs, campaign for change and represent you on university and college management committees and boards.

We also want to ensure you are having fun while studying with the university. Make sure to have a look out for our clubs and societies, volunteering opportunities and general activities. Our clubs and societies offer opportunities from snow sports, skydiving and football to arts, literature, and anime. We also host one-off sporting and social events and can provide support to establish new clubs and societies, so if there’s something you’re passionate about that we don’t already cover then please give us a shout!

From the wide range of courses on offer you will see how dynamic and innovative your journey with UHI will be. I hope you are inspired by the course offer and that you will join us soon!”
How much will it cost me?
At university your main costs will be:
• Tuition fees – the fees charged by us to teach you (see table opposite).
• Living expenses – your accommodation, food, clothing etc.
There may also be specific course-related costs; please check our website for further information.

How will I pay?
Depending on where you live and your personal circumstances you may be eligible for financial assistance in the form of loans, grants and bursaries. You should look for student finance as soon as you apply to university, even if you have not yet been offered a place.

Scholarships
The University of the Highlands and Islands Scholarship Fund can provide a helping hand to enable students to progress in their studies. These are listed on our website: www.uhi.ac.uk/scholarships

For full-time study:
• If your home is in Scotland and you meet the eligibility criteria, your tuition fees are normally paid by the Students Awards Agency for Scotland (SAAS) and you can apply for a student loan to help you with your living expenses. There is also a range of other support such as Young Students’ Bursary, Independent Students’ Bursary, additional loan and supplementary grants. For full details visit: www.saas.gov.uk
• If your home is in the rest of the UK (England, Wales or Northern Ireland) you can apply for loans and grants to cover your tuition fees and living costs through your regional student finance department.
  • Visit: www.studentfinancewales.co.uk if you live in Wales.
  • Visit: www.studentfinanceni.co.uk if you live in Northern Ireland.
• If you are an international student, there may be funding opportunities available for you, visit: www.uhi.ac.uk/international
• If you are an EU/EEA national: Following the UK’s departure from the European Union, EU/EEA and Swiss nationals, who do not have settled status in the UK, will require a Student Route visa to study here and will be considered as international for fees. In 2021, the university introduced an automatic scholarship to eligible students reducing tuition fees payable.
For part-time study:
- If you are planning to study part time you may be eligible for a part-time fee grant from SAAS, visit www.saas.gov.uk, or for funding of up to £200 per year through a Skills Development Scotland Individual Training Account.

For students who require support:
- If you have a particular need, such as a learning difficulty or disability, please speak to your chosen campus about the financial and learning support available to you.

Rest of the UK (RUK) students:
For students living in the rest of the UK (England, Wales and N. Ireland) studying full time:
- Degree courses are charged at the per annum cost shown in the table below for a maximum of three consecutive years (fourth year free); so the **maximum fee for a four year degree is £27,000.**
- All HNC and HND courses are charged at £6,915 per annum for full-time study. Degree courses comprised of an HN award as the first and/or second year will be charged at £6,915 for the HN portion then the relevant fee for the degree year (fourth year free for continuous study).
- Part-time fees are pro-rata to full-time fees based on 120 SCQF credits per year.
- The university offers bursaries for full-time study to students meeting the eligibility criteria. To find out if you are eligible for an RUK bursary, visit our website: www.uhi.ac.uk/ruk-bursary

For more information contact us on: 01463 279190 or visit our website at: www.uhi.ac.uk/fees-and-funding
Applications for full-time degree study should be made through UCAS, and you should use the University of the Highlands and Islands code **H49**. Please ensure that you also enter the correct campus code for the location where you wish to study; individual campus codes can be found to the right.

Visit: [www.ucas.com](http://www.ucas.com) for additional help and information on completing your application.

For all other full-time courses and part-time study, apply directly to the university from the relevant course page on our website. Admissions staff at your chosen campus will also be happy to provide further information on all aspects of applying to the university.

## Late applications through UCAS

UCAS provides two services which can help you to secure a place if your application is late or if things have not gone entirely to plan.

If your UCAS application has resulted in no offers from any of your chosen institutions, you might be able to apply through UCAS Extra for additional courses. This service lets you apply for courses with vacancies between the end of February and the end of June and means that you do not have to wait for Clearing to start.

If you are applying after 30th June or have not achieved your expected grades and do not have a university or college place, UCAS Clearing can help you find a suitable vacancy on a higher education course. The service is available in August and September.

For more information visit [www.ucas.com](http://www.ucas.com) or call 0371 468 0468
Select your course
Find the right course for you... browse the diverse range of courses we offer in our prospectus, or search our website for more detailed information:

www.uhi.ac.uk/courses

Select your level and mode of study
Check the level of your chosen course... this could be an HNC, BA, BSc (Hons), etc
Decide how you'd like to study... most of our degrees require full-time study, however some of our courses, including HNs and degrees, can be studied part-time.

Select your campus
Decide where you'd like to study...

Then apply!
What do I need to get onto the course I want to study?
You will need qualifications, a personal statement and a reference. For some specific courses, you may also need to:
- Come to an interview or audition
- Submit an art/design portfolio
- Provide evidence of relevant work or voluntary experience

What qualifications and exam results do I need?
The qualifications, subjects and grades you need will vary by course and may also depend on your personal circumstances.
If English is not your first language, you will normally need to provide evidence of your English language skills through suitable qualifications.
Specific entry requirements are listed on each course page in this prospectus. The published standard entry requirements have been set at the minimum required to successfully complete the course.
You will normally need to achieve grades as good as or better than these to be made an offer.
For example, for our history degrees

SQA Highers: **BBC**
A levels: **BC**

However, we consider each applicant individually to identify their full talent and potential, regardless of background or life circumstances, and look beyond grades to do this. If you do not have the published standard entry, we can offer many alternative routes to degree study, for example:
- You may be asked to complete a summer school or a short online course, or undertake a written assignment as part of your offer. Additionally, depending on your personal circumstances, you may be assessed as a **widening access student** (see opposite) and, for some courses, may get a lower or adjusted offer.

Am I a widening access student?
We consider you to be a widening access student if you are from a group that is under-represented in higher education. We welcome, encourage and support applications from widening access students. You will be assessed as a widening access student if you:
- Live in a specific Scottish postcode area which identifies you as living in an area of high deprivation
- Have experience of being in care
- Have taken part in a Schools for Higher Education Programme, such as ASPIRENorth
- Have attended a Scottish school, which has low numbers of students progressing to higher education

If you are in one of these groups, your application will be given additional consideration. This applies to applicants who do not have the standard entry requirements for the course, or where there is competition for places. It may result in you joining the course with lower grades than the standard entry requirement and/or undertaking additional work before starting your course.

All photographs and images used in this prospectus are protected by copyright and may not be reproduced without permission.

This prospectus is printed on Edixion Offset which FSC accredited, carries the EU Eco Label and is made from wood originating from sustainably managed forests. The pulp is bleached without the use of elemental chlorine and the paper is recyclable and biodegradable. Manufactured in a mill that operates under ISO 14001, ISO9001 and EMAS environmental management systems.

Thank you to all students and staff who helped in the production of this prospectus.

We have made every effort to ensure that the information in this prospectus is accurate at the time of going to press. Inevitably, because of the extended lead time of prospectus production, changes to course information may occur and we will endeavour to reflect any such changes as quickly as possible on our website www.uhi.ac.uk

Throughout the coronavirus COVID-19 pandemic, we closely monitor the ongoing advice and impact of the virus to ensure we can support our current and prospective applicants, and follow the guidance of the Scottish Government. Information on methods of study may therefore be adjusted in line with this guidance.
