

Advanced Nurse Practitioner/Advanced Clinical Practice

Module Title: Understanding Research in Evidenced Based Practice

Module Code: UB711012

Length of module: 15 weeks

SCQF 11 Credits: 20

Semester: Autumn

Learning Outcomes

LO1 Demonstrate an enhanced level of understanding of evidence-based practice

LO2 Demonstrate an enhanced level of understanding of research methods

LO3 Evaluate the quality of research and its application to clinical practice

LO4 Demonstrate an understanding of ethics in the process of research and evidence-based practice

Mode of Study

Face to face teaching - 10 hours

Online, tutor supported study – 10 hours

Self-directed study – 180 hours

Assessment Details

The main summative assessment is a written report in 3 parts (3600 words):

Section 1: Quantitative data analysis and interpretation (1200 words)

Section 2: Qualitative data and analysis and interpretation (1200 words)

Section 3: Identification and discussion of ethical issues in research (1200 words)

In each section the student will apply their knowledge and understanding of the key learning outcomes
