

Sustainability Science Teaching and Applied Research: Central Asia and South Asia Pathways

Friday 6 August 2021 - Parallel Session 6 - 11.30am to 12.30pm (GMT+1)

SINCLAIR - Building Enduring Partnerships

Ariel Toh (*Marcharh Initiative Centre for Sustainable Solutions, UK*)

Sustainability Science Teaching and Applied Research (STAR CASA) is committed to providing a more applied scientific process with a sustainable facility for teaching and rapid dissemination of sustainability science knowledge. This provides a novel case regarding Central Asia and South Asia (CASA) opportunities in educating sustainability science; and the agents, networks, and compiled platforms made available to support access to quality education at rural communities, and in varied methods. STAR CASA offers a lesson that the education innovative pedagogy - mainly focusing on streamlining sustainability science at its core which proves that partnerships for sustainability development are crucial between different economic sectors.
