Aurora at UHI: Inclusive & sustainable

Transparency and openness

Rigorous selection process

Further development opportunities with LTA

Building participant confidence

Belonging to a growing community

Supporting leadership approaches grounded in practice

Building momentum

Participating in evaluation and research

UHI Aurorans

2018/19

2019/20

2020/21

Evaluation and research study

Key findings across the two studies

Emboldening effect of Aurora

- ▶ Growth in confidence in their practice of leadership
- ▶ A sense of belonging through a new internal network
- ▶ An exploration of the nature of leadership (theirs and others)
- ▶ Identification as a leader (influencer)

Absence of opportunities

2018/19 Evaluation

- ▶ lack of opportunity to utilise new skills developed from the programme,
- ▶ lack of supportive institutional workplace culture and practices,
- ▶ lack of identification of potential opportunities,
- ▶ lack of recognition of the demands of balancing home and working life.

2019/20 Research study

- ▶ “those positions don't exist.”
- ▶ “There is no obvious trajectory for leadership progression.”
- ▶ “There are no obvious institutional opportunities apart from voluntary ones which do not then fit in contracted hours.”
- ▶ “it's not about fixing us. It's about fixing structures and cultures.”

Recommendations

- ▶ Define what the university values in leadership and how it is rewarded.
- ▶ Identify and provide more inclusive approaches to leadership roles including part-time and job share options.
- ▶ Review the requirements of senior leadership roles so that they are:
 - ▶ not potentially harmful to everyone who does them and
 - ▶ potentially differentially harmful and off-putting to some sub-groups of staff
- ▶ Define work/life balance and flexible working patterns and how they are supported
- ▶ Gather data across the university on recruitment, appointments and professional development
- ▶ Explore opportunities for career progression and development into leadership roles
- ▶ Continue and build engagement in Aurora as part of building educational leadership capacity
