

RefMobile puts RefWorks wherever you are!

Manage your research wherever you go, whatever you do with RefMobile. It's research on the go—made easy! All you need is a Web-connected mobile device: mobile phone, smart phone or PDA.

Search

Search your entire RefWorks database for whatever you need

View & manage folders

Reorganize your database on the fly

Exclusive! Smart Add

Quickly search the Web for a reference using key information—such as author name and year published, or identification numbers—and add it to your database with a click

View all records

Review them, add them to folders

Add a Note

To any record

RefMobile's Smart Add

Enter key information, such as a PMID number

Pull up the reference and save it

File it in your selected folders.

Top 10 Reasons to Love RefMobile

- 1 Always available.** It's ready whenever and wherever you are (well, OK—anywhere you get phone service).
- 2 Enjoy life and stay productive.** In crunch mode? Don't get tied down to your desk. You can go out and still work on your research.
- 3 No syncing.** You work right in your Web-based RefWorks database—do it once and it's done.
- 4 Instant, infallible excuse.** You can honestly say “Sorry, I'm doing research” at any time.
- 5 Real people. Real Help.** You have email and phone access to the same great RefWorks support.
- 6 Justifies a new toy.** The investment in a new phone or PDA is well worth it when you can get more work done.
- 7 No more wasted time.** Standing in line? Waiting for friends? Stuck in a boring class? Do something useful and work on your research.
- 8 Think on the fly.** Got a brainstorm? Add notes right to your records—no stickies or scraps of paper.
- 9 Fits in your pocket.** No need to lug a laptop with you—RefMobile fits wherever your phone fits.
- 10 Free!** RefMobile is available for all RefWorks users.

Try RefMobile right now!

Just use your web-connected phone or PDA to go to www.refworks.com/mobile and get to work!

“OMG. #RefWorks has a mobile interface now!?! Best thing ever.”
—from Twitter

“This looks great! I have a database of over 3,000 records and I could view all references in a blink of an eye.”
—Jean Johnson, Lehigh University
